Editorial (cont'd)

Furthermore, student council has failed to use the activity fee as a stimulus in aiding the growth of the clubs have in the campus. Instead, by refusing justified requests and unjustifiably reducing budget estimates, it has actually stifled some of the interest students have shown in the Chorus, the College Arts Society, and the German Club. Why the students who joined the German Club couldn't receive an appropriation equal to 20 dollars (less than ten cents from the 7.50 contributed by the students) is a question that has been far from adequately answered.

Lastly, Council has refused to refund the transportation costs of the students who went to Hershey to see the opera 'La Bohme' in spite of the fact that is sponsoring the football trip. Both trips meet the same basic requirements, yet, the Council decided that the one trip should be free of charge, while the other was not.

Student Council should consult groups such as the Vets - should cease to fight the various clubs - and should cease to provide biased, partial support.

THANK YOU SIR!

The members of the Initiation Committee wish to thank Captain Carper for his co-operation in making the recent Freshman initiation a success. The entire Sophomore class appreciated his excusing Freshman ROTC Cadets from wearing uniforms during the initiation period.

HAZLETON PUBLIC LIBRARY

It is the mistaken idea of the students of the Highacres Center of the Pennsylvania State University that you must pay a subscription fee to take out books from the Hazleton Public Library. This is not so. There is no charge for any Penn State student, no matter where they live.
