BOWLING OPENER A SUCCESS!

The opening of the Penn State Center Bowling League this past Sunday, was a remarkable success as all ten teams opened up on the Playhouse Alleys in Hazleton.

In opening matches, the Engineering, Zoology, and Speech teams won all three points on some fine team strength. On the average, most teams are fairly well balanced and all indications point towards a fine highly competitive season.

Ray Bittner of the Engineering team took all the honors, as he swept total points and high individual game. Peter A. Digiondomenico and Bob Miller rounded out the top three places on individual averages.

Schedules and complete averages will be posted on the bulletin boards.

MORE AND MORE MOORE

This was the story this past Saturday, as the Nittany Lions roared to a 34-14 win over mediocre Rutgers at University Park. The lad from Reading, gave the fans thrill after thrill, offensively and defensively all afternoon. After reeling off a record-tying 80-yard run in the first period, Moore was content to be the decoy on the outside for a while. Opportunity came several times later in the game, and Moore sped to several substantial gains, his best running efforts of the season.

THE PENN STATE SOCCER TEAM...

led by All-American Dick Packer, tied the Penn State all-time record of 17 straight wins this past Saturday, defeating the Temple Owls 5-0, and almost assured themselves of their second straight National Soccer Championship. The win over the Owls puts the Lions two short of the national record set by the same Temple Owls, and ironically,

it was the Lions who snapped Temple's 19-game streak.

Dick Packer, who scored three goals Saturday, and all three in State's 3-1 victory over Navy last Tuesday, is one goal short of the mark set by All-American Jack Pinezich (Penn State) in 1952. With but one game remaining (Pitt Panthers at home), it is quite possible that Packer may become the new scoring champion of Penn State.

THE TRAFFIC SITUATION!!

Student Council's action last week to return after only a weak trial to the old twenty-four hour time period to pay traffic fines has every characteristic of an improper action. In the first place, all the discussion heard on the question was definitely against the action taken by the Council. Despite the fact that two Council representatives positively claimed they could not, on certain dates, pay a fine within twenty-four hours, the motion was unanimously passed. In the second place, the motion was passed because the Traffic Committee demanded it and for no other reason.

The action of the Traffic Committee in demanding the motion be passed was based on two reasons. First, the Committee objected to having their recommendations of the previous week ignored. Second, the Committee pointed out that the policy in the past had been to give only a twenty-four hour grace period to pay a fine.

The important fact here is that the Traffic Committee held absolutely no outside investigation on the question. They completely ignored the facts and judged the subject by their own personal prejudices. No investigation into the students' schedules were held to see if it is possible to pay fines in all cases within the twenty four hour period.
