DAPSON SCORES HIGH SINGLE, SERIES:
ENGINEERING MAINTAINS LEAD

Leon Dapson stole the thunder several weeks ago by rolling a record-breaking 573 series which included also a towering 246 single. The consensus of opinion of the top bowlers in the League has it that the high single will be tough to break, but the series total is within good range.

The Engineering Team still leads the pack, holding a 1 point edge on Speech and 1 1/2 point edge on Drafting. The match that could decide things for the moment is the one between Drafting on January 22nd. The Drafting Team has won 14 out of their last 15 points.

Ray Bittner has boosted his leading average two points to 166. Jim Koren has moved into second, gaining 1 point for a 159 average. Bob Miller, with a bad series last week, slipped 5 points to a 157 good for third. Charlie Tarone is in 4th, with a 155.

Sandy Coxe boosted her average 2 points to a 102, by virtue of a fine, 149 game, high among the women. Margie Churilla rolled a 348 to set a new series mark for the women.
