MORE TIME SOUGHT BETWEEN SEMESTERS

Adrian O. Morse, University Provost, addressing the University Senate on January 5, stated that in order to alleviate the rush between the fall and spring semesters, a plan must be formulated and acted upon before the beginning of the 1956 school year.

Acting as chairman during the absence of President Milton Eisenhower, Mr. Morse stated that there would be some doubt as to where the extra time would come from. It could be taken from one of the holiday vacations or the summer vacation.

Further meetings of the Senate will determine the course of action to be taken on this matter.

COUNCIL AMENDMENT TO GO TO S. F. B.

Several proposed amendments to the Student Government Constitution will be presented to the Student Faculty Board for approval at its next meeting. The amendments were introduced by William Smith and Lawrence Kowalski back in December. Since there has been no Student Faculty Board meeting in the meantime, the secretary of Student Council has held the amendments.
