

CONGRATULATIONS TO COLLEGE ARTS

Having concluded a very successful movie season which included the showing of a number of excellent pictures, the College Arts Society has discovered a budget surplus. According to current rumors, the Society is considering refunding the money to the SGA General Fund for re-allocation by Council.

In the opinion of the staff of this paper, such a movement, if made, should be commended by the entire college. Coming at this particular time, it might mean that Council will be able to put some excellent orchestra under contract for Convocation. The Council is considering this move, but early reports say that financial difficulties may hinder it. So you see why we say that if the College Arts Society under President Novarnik, decides to aid in this manner, they deserve the thanks of every student at the Center.

We are looking forward to an excellent Convocation program, since this occasion climaxes the Highacres social season.

To The Editor:

As faculty advisor of the College Arts Society, I wish to correct a statement which was made, through some puzzling inadvertence, in the April 13th issue of The Collegian, namely that a change of film night was being considered: no such change of schedule is being considered, for the quite impersonal reason that Monday night has been found in our experience to bring out the best attendance and to involve the fewest conflicts with other activities. The fact that attendance this year has been the fullest and the most sustained in the last few years tends to confirm this judgment; credit for this fact goes to the members of the College Arts Society for their enthusiastic initiative, to the Society's President for her willing assumption of responsibility, and to the faculty for

their cooperation in reminding their classes of coming film dates.

A. G. Wilcox

Ed. . . .the report we received on this subject was in connection with night classes and military reserve meetings held on Monday nights.

SOFTBALL INTRAMURALS READY

Having finished both the bowling and basketball seasons, Student Council, through its Sport's Committee concluded plans for a softball league. Trophies to the winners of all these events are scheduled for presentation at Convocation.

At its Friday meeting, Council ordered 6 balls and 2 gloves and one mask to supplement the softball equipment it had purchased earlier.

Council also heard a report by Theresa Bobowski on the May Day Semi. Mr. Wilcox English Instructor, addressed the Council on the possibility of transferring a budget surplus from the College Arts Society to the general fund.

KAFKA JUDGE AT KINGS DEBATE

Mr. Andrew Kafka, of the Highacres faculty, served as one of the judges at the seventy annual Kings College Debate League which opened on April 11, in the Southern Division. St. Ann's of Hazleton, took the decision over St. Nicholas, of Wilkes Barre.

The National High School question for 1956 is: Resolved: that government subsidies should be granted according to need for high school graduates who qualify for additional training.

St. Gabriel's, of Hazleton, St. Ann's, St. Nicholas, and St. Vincent's of Plymouth, comprise the Southern Division. Schools from up-country form the other two divisions-Northern and Central.
