Recreations -----	75
College Arts -----	220
Miscellaneous -----	370
Reserve -----	100
Total	\$3,700

HIGHACRES GETS A NEW WATER COOLER

William Reilly

By now, most of the students here have at one time or another, been refreshed by the cold water from our new water cooler on the second floor of the main building. This cooler, presented by the Highacres Class of 1957, is located just opposite Room 211.

In a recent interview, Mr. Longo, of our faculty, disclosed a few facts concerning this new addition. Mr. Longo, pointed out that, as the returning students will remember, Highacres had a water shortage last year. One day, the water cooler in the main lobby refused to work. As it was several months before the new parts could be obtained, many of the courses here

became quite dry along with the students, as our clever commentator put it.

Gifts, such as this new water cooler, are left each year by the outgoing class. Another such gift was the benches, which are well used in the good weather. A reading machine, designed to improve one's reading skill, also has been left to us. Still another gift, in the recreation hall, is the television, which received a workout during the recent World Series.

Don't you think these are worthwhile gifts? Of course, they are, and all of us undergraduates really appreciate them. So, next time you are in the Main Building, stop for a drink and enjoy this new gift by the class of 1957.

CLUB NEWS

Olga Markus

Due to the absence of so many students during the past few weeks, all club activities have been temporarily suspended, and no meetings are being held. When clubs again resume their functions, club news will be presented as they arise.

LIBRARY

Olga Markus

The Center Library is always available to the student body, and everyone is urged to make use of it during free periods. The librarians are always ready to help in any way possible.

However, some students who come to the library seem to take the wrong turn on their way to the rec hall, and resenting the silent atmosphere in the library, do their best to liven things up. Don't they realize that they are depriving the members of the rec hall of their companionship, and that their laudable contributions will be much more appreciated in the recreation building. Let us respect the serious purpose of our library, and keep as quiet as possible.
