

Philosophy cont. -

Edict four - Nothing makes any difference in the long run, for instance; It doesn't make any difference if anybody reads or understands this article or not now or later and even if they did read and understand it, it doesn't matter anyway.

With this philosophy, a poor student can sit back and enjoy the view of Conyngham Valley while he fails an exam and says "to hell with it" in a convincing manner.

Letters To The Editor

Mr. Editor:

It has now become a common fact around the campus that the last issue of the Collegian had its joke page cancelled. In doing so, the party responsible for the censorship struck a direct blow at the student body by degrading the student body as not mature enough to read an adult humor page. Let's exercise our freedom of the press combined with a realistic sense of judgement in further issues.

A committee of loyal readers.

My Dear Sir:

Let me remind you that there is a far greater variety of girls than was mentioned in your article entitled FEMALES CLASSIFIED. The R.O.T.C. boys had better not get too serious about this particular work which we notice has no byline.

The Kinsey Society

Dear Linda:

It's not that I enjoy writing threatening letters, but I feel that future of Penn State is at stake. Your column is just too much! So stop the nonsense because I'm already over my budget in the blackjack department.

Louie

Miss Linda Lovely:

I think your column is superb! It's too bad you have such a nasty editor who tries to under rate you. Whatever you do, don't give up. Stick to your guns and keep writing that enlightening page. Well, I must close now, for you see, the men in the white coats want to take me back to my cage.

I can't remember my name.

Editor-in-Chief:

We want the Jokes!!!

Editor:

I see Russia's claim of their third stage rocket from Sputnik I landing in the United States is True. That's a wonderful picture of it you had on your last cover.
