NEWS AND VIEWS

by Bee and Jay

Greetings and salutations! We know you've all been very anxious to hear the latest, so here we are with the scoop.

Word has it that one of our "Tech" students has recently become a father. Congratulations, Richie!

By the way, we hear that the cadet captain of R.O.T.C. was seen with two brunettes last Friday night. What will that gorgeous red-head from McAdoo say, "Tiny"?

Kathy Barthalaus, a much admired coed here, has been seen in the company of a piano player of local fame lately. Nothing of interest there, we trust?

The T.G.I.F. club is now open for membership. The weekly meeting will be held Friday evening at the usual place. If you want to know where the usual place is, ask Jack Sotack, club president.

We admire the "esprit de corp" of all five members of the drill team who showed up for practice on Monday morning. To quote the drill team C.O., "Whatsa madder wit youse guys, ain't cha got no intestinal fortitude?"

Well girls, get your prom gowns out of moth balls, there are two formals coming up. Our beloved R.O.T.C. officers have

been muddling their brains in an attempt to come up with a date for the pending "Mill Ball", which, supposedly will be held in the early part of May. Also in May, on the seventeenth, to be exact, is the May Crowning, after which there will be a formal.

Speaking of May Day, voting for the May Queen will take place Tuesday, March 18. So be sure to get out and vote for the most "all-around" girl among the four sophomores who are running.

Criticisms of this column will be placed in the same wastebasket as that which is provided for the "Boys Classified."

THE COLLEGE "STUDENT"

It seems that our country has developed an entirely new species of human beings. We call them college students. I doubt that this species has existed before at any time or in any place, and moreover I doubt that if it had existed that they would have been called students. If these students had their birth in a society similar to the ancient Spartans' where persons who could not perform some useful function were eliminated, their fatality rate would far exceed Adolph Hitler's batting average. It could be argued that they are going through a period of preparation; and therefore, nothing of value could be expected of them at the present time; however, observe them closely and you will work yourself into a quandary as to what they are really preparing for. They appear to be preparing for their future career by discovering, now, the different methods and means of avoiding work.

It would be logical to conceive that as the students of this country, they would be advocates of intelligent thinking; however, the students themselves appear to have taken possession of the opposite role; that of the assassins of
