

GOSSIP
by B,J,and staff

Well group, theres a lot of gossip right about now and so we'll pass it along.

We thought we'd give you the scoop of the week on the latest romances around the joint. First there is Dane from _____ and Casey from Patterson, N.J. who seem to be giving "Babe" and "Ginger" from Hazleton High School, quite a play. Next, in the romance department, we have "Little" Lenny Lithgow who has a mad crash on Janet, a "nice" girl he met at Wentzel's in Tamaqua. Also, we'd like to know what happened to Marlene F. a few weeks ago when she came into the Friday Chem. 2-B Lab. late??? Finally, how are things at Reteneller's Chuck?

Another big topic around school is the dances that are coming up. The Record Dance on Monday night was, as the fans who attended already know, quite a blast! The Sorority really did a nice job of making the dance a success. Everyone seemed to have a good time. At least Bernie H. and Sandy R. seemed to have a good time. We'd like to see the same large crowd at the dance at the ISDA tonight, as attended the last one there.

We want to see all of you at the Semi-Formal Dance, the evening of the May

Crowning. From what we hear, its going to be quite an affair. Better get your date soon, its only two weeks away!!!

P.S. We hear that some of the boys have been paying visits at noon to the girls sitting on the wall down at Hazle Township. What about it., Silver and Albert?

"SNAP COURSES" ON CAMPUS

ZDEP

Many HIGHACRES students will further their studies at the Main Campus next semester. In many cases the question arises pertaining to courses which may be taken as electives. A great many students are under great mental stress and would like to fill their education gaps with "snap courses." Here are a few:

F. N. 421, Advanced Foods---

This is a three credit course meeting three times a week in the cafeteria. The object of the course is to sample anything available in the line of foods. The final exam consists of digesting wood like a termite.

C. D. F. R. 444, Marriage & Family relationship

This is a co-ed course offering three credits. People even take this course for no credits. In fact they even fight to take this course

Applied Psychology

This is a one credit course taught by a complete idiot. The idea is to match wits with the professor. About half of the applicants to this course fail.

Alcoholism 89

Two credits are given for this continued
