

LIBRARY MOVED

6300 BOOKS SHIFTED

Students, have you seen Highacres' new and larger library? This new library occupies the former lounge and administrative offices on the first floor and the discussion room in the basement of the Administration Building.

Over 6300 books, filing cabinets, card catalogues, magazines and other periodicals, book shelves and racks, tables, chairs and other library materials were moved from the Memorial Building across campus to the Administration Building during the mid-semester vacation.

The first several hundred books were carried by hand to the new library by students. The remainder of the books and other library material and furniture were transported by students, campus custodians, and the librarian, Mrs. Mary Ferry, on the campus station wagon.

In the former lounge--the large room as you enter the door--are fiction books, philosophy and psychology books and current magazines and newspapers, 0's to 300's.

The checkout room to the right as you come in the door serves as an office for the librarian and includes card catalogues, social studies books and reserve books--continued up to 360.

A spiral staircase joins this upper main floor section of the library to the basement where the rest of the non-fiction books are arranged--from 360 to 999. Tables for studying are available in all rooms.

The former office of the administrative head is now a reference room. All students are urged to make use of this room which can be reached by going through the charge room and to your right. Reference books in wall shelves outline a huge round wooden table in this room. There are approximately 600 reference books in the campus library!
