We, the above named, if elected, pledge ourselves to strive to the best of our abilities in achieving the most desirable and practical goals for the student body of Highacres.

We will not make any ridiculous promises that we will be powerless to accomplish. We will, however, try our utmost to see that the following proposals are explored to their utmost potential.

Student Radio Program: With the co-operation of WAZL radio station in Hazleton, we hope to institute a weekly fifteen minute program arranged and produced entirely by Highacres students.

Yearbook: We propose the formation of a yearbook edited and staffed by students of Hazleton Campus.

Student Union Board: We advocate the formation of a Student Union Board to co-ordinate and plan social activities at Highacres. This board would be independent and relieve the S.G.A. of tedious duties pertaining to social affairs and therefore allow them to devote more time to pertinent campus problems involving regulatory, advisory and budgetary fields.

We have carefully considered each office for which we are seeking election and we believe our candidates are best qualified from past experience to hold these various offices. We believe our candidates are best suited to represent the Freshman Class and we therefore solicit your support and vote in the forthcoming election.
