

PROFS. OUTLINE SUMMER PLANS

In a recent spot-check survey conducted by the Collegian, the following instructors revealed their plans for the coming three months:

Mr. Dennis Cimino will be employed as a chemist in the research laboratory of General Foam Corporation.

Mr. Burns and Mr. McKinstry will be engaged in the interesting but involved task of aiding new students who will enter college in the fall get off on the right foot via sound counseling advice.

Our pleasant librarian, Mrs. Ferry will continue in her capacity for the summer with the exception of a four week vacation.

Ardent botanist, biologist, and zoologist, Mr. Crawford, has been asked to instruct classes in Botany 1 and Zoology 25 at the Altoona Campus.

Mr. John Longo, capable Business Administration instructor, intends to further his pursuit of knowledge in his field by attending a session at Boston University.

Mathematically-minded Mister Samuel Ross will be employed as a research engineer for the Boeing Aircraft Company in Huntsville, Alabama this summer. The work he will undertake concerns the booster system of the Saturn Missile.

Amiable math instructor, Mr. Raymond Whitney plans to spend the summer at home in Illinois where he will seek employment.

English instructor Mr. Thomas Price plans to begin work toward his Doctorate during the coming months.

PLANS TO TRANSFER

(Continued from page one)

Larry Lash, and Paulette Lindemuth.

Also: Alfred Lis, Michael Lizbinski, Annetta Long, Angelo Lorenzoni, James Luce, Jude Matteo, Marie Melchiorre, Wayne Michael, Alfred Michalik, Frank Mondik, Robert Parsons, William Petruska, Walter Pilger, Eugene Riley, John Rosenstock, Mary Schan, Taylor Searfoss, Brent Samuel, Stephania Simasek, Gregg Smith, Thomas Smith, Mary Temke, John Tokash, Thomas Tonon, Katherine Yenko, Geraldine Ziegler, George Zuruck and Diego Ferro.

Students transferring to other campuses are: Karl Boettger, DuBois; and Edward Abrams, York.

Miss Jill Faux is transferring to the University of Pennsylvania, and Miss Diane Getz is transferring to Bloomsburg State Teacher's College.

H.U.C. GROUP VISITS PHILA.

The Belles Lettres Society, together with the Parnassus chapter, sponsored an excursion to Philadelphia on Saturday, May 11. Those who attended were able to enjoy various different activities.

Many Biology students visited the Zoological Garden; other science-minded students were interested by displays at the Franklin Institute, and the Academy of Natural Sciences.

Music lovers saw the matinee performance of The Sound of Music. The Museum of Art also was included by some on their sight-seeing trip.

The Philadelphia Phillies received some support that day by fans from Highacres also.

Mrs. Elizabeth Bodenstein, Mr. Ralph Crawford, Mr. Pasco Schiavo and the following students made the trip: Annamaria Semancik, Gregg Smith, Tom Smith, Mary Temke, Mary Beth Martin, Marie Melchiorre, Walter Pilger, Annetta Long, Paulette Lindemuth, Mary O'Donnell, Phil Jeffries, Harry Scheidy, Joe Fulton, John Rosenstock, Larry Lash, Wayne Michael, Anita Fahringer, Molly Boyer, Donald Girard, Donna Foster, David Meyer, Francis Pierrucci, and James Scarcella.

CAN YOU SOLVE THIS?

If Sara shouldn't, then Wanda would. It is impossible that the statements: "Sara should," and "Camille couldn't," can both be true at the same time. If Wanda would, then Sara should and Camille could. Therefore, Camille could. Is the conclusion valid?

In a contest: Jim beat Frank and John; Frank beat Joe, Tom and John; and John beat Joe. Rank the players according to their winning ability.

Using only mathematical signs and without changing the position of any of the figures, can you make this into an equation?

$$2967 = -17$$

What number if divided by 10 leaves a remainder of 9; divided by 9 leaves a remainder of 8; divided by 8 leaves a remainder of 7... divided by 2 leaves a remainder of 1. One answer is 14, 622, 042, 959. Find a smaller solution.

Answers to these puzzles may be turned in to either Larry Lash or Charles Rudewick.

McCallus Releases Placement News

The administrative staff and the faculty of the Hazleton Campus of the University maintain a lively interest in the current professional and vocational activities of our alumni. Although the University does not assume responsibility for placement of students, a large and efficient Placement Service operates at University Park which coordinates the placement activities of all the colleges and departments of the University. The General Placement Section and The Teacher Placement Section are available to all students and alumni, without charge.

At the Hazleton Campus, special efforts are made to assist any student or alumnus who is seeking employment or who is interested in changing his present employment.

Mr. Joseph L. McCallus, co-ordinator at the Hazleton Campus, is coordinating Placement Service Activities for students and alumni of our local campus. He has asked us to inform the readers of our newspaper that he would appreciate any inquiries from any and all students interested in the workings of our local Placement Service or in using this service.

In the spring of each year, a concentrated effort is made to bring students and interested alumni together with representatives of firms or companies where employment opportunities exist. This has been successful in the past and has resulted in the placement of quite a number of our graduates. This year the following firms visited with and interviewed students on the Hazleton Campus: Du Pont, Penna. Power and Light Co., National Security Agency, Sandia, Bell Labs, and A. T. & T.

It is also reported that the starting salaries are a bit higher and prospects for employment are bright.

LIBRARY NOTES

Recent acquisitions of the Hazleton Campus Library were released by Mrs. Paul Ferry, Librarian. They include the following:

Wollheim, Rivahrad. F. H. Bradley: The 19th Century Metaphysician... New York: Penquin, 1959.

Summer Employment Directory, 1963. Cincinnati, Ohio, National

ATTENTION

Recently it has been noticed that unnecessary litter including candy wrappers, fruit cores, and cigarette butts is being carelessly scattered about our campus. Not only does this condition create an unsightly appearance on our well-kept lawns and gardens, but it creates breeding places for insects and, in the case of cigarette butts, a fire hazard. Although the term is almost at an end, it is well to issue this reminder, especially to the students who will be returning to Highacres this Fall. We are fortunate to be situated among beautiful natural scenery in a picturesque location; the surroundings of many other campuses are not so impressive. Please deposit trash in the proper containers and butts in the places provided for them. Take pride in the appearance of the Hazleton Campus and have consideration for the caretakers who are constantly at work to keep its grounds beautiful.

Belles-Lettres Society Ends Successful year

The Belles-Lettres Society of the Hazleton Campus will be ending one of the club's most successful years. The achievements of the Belles-Lettres for 1962-1963 include the sponsorship of an art show held in the fall term, printing a book-marker containing the vital statistics of the Campus, the sponsorship of the Fifth Annual High School Interpretative Reading Festival, the Fifth Annual Reading Festival for the students of Highacres, the participation of 4 representatives at the Main Campus in the Penn State Reading Festival, and a representative at a Speech Concourse held at the Behrend Campus.

The officers of the Belles-Lettres are: President, John Rosenstock; Vice-President, Gregg Smith; Treasurer, Anthony Molinari; Secretary, Mary O'Donnell; and Chairman of Public Relations, James Scarcella.
