

BLOODMOBILE SCHEDULED NOV. 5

Mrs. Tamba, nurse at the Highacres Campus, has announced that the quota of blood needed to cover students and their families until the spring of 1966 is 45 pints. Since we did not meet our quota at the Bloodmobile on November 5, December 7 has been given as an alternate date.

Anyone in good health, weighing 110 lbs. and over may give blood. Donors must be between the ages of 18 and 59, and those between 18 and 21 must have parental consent.

Donations of blood may be given once every eight weeks, but not more than five times a year.

Before a donation is accepted, the donor's medical history is taken. His blood pressure, pulse, temperature, weight, and hemoglobin level are determined.

Some of the medical uses of blood are these:

1. National emergencies.
2. Accident victims (burns, shock, hemorrhage, etc.).
3. Disease and shock (to replace deficiencies in the blood).
4. Childbirth (to replace any loss in the mother and to replace damaged blood in the baby).
5. Surgery (before, during, and after operations).
6. Medical Research.
7. Blood derivatives:
 - Gamma globulin (to prevent measles)
 - Serum albumin (to combat shock).
 - Fibrinogen (to stop hemorrhage).
 - Red cells (to treat anemia).
 - Frozen plasma (to treat hemophiliacs).
 - Vaccine immune globulin (to treat vaccine complications).

The Highacres blood program has been provided for the benefit of its students. The Collegian urges Highacres students to donate blood so that student coverage under the program can be maintained.

HIGHACRES ACQUIRES BELL

This year, the Highacres Campus acquired a large golden bell which stands in the garden between the SUB and the Main Building. Mr. Frank Kostos, administrative head of the Hazleton Campus, obtained the bell from an old school building. Mr. Kostos wanted the bell as a symbol of free education.

THE COLLEGIAN
WANTS TO
KNOW

Why aren't people clearing their tables yet? A few days ago a group of professors came into the Sub at lunch time to eat. Before they could sit down they had to clear off the table of garbage and trash left there by students. This is only one case, but there are many more.

The SUB is your building, built for your convenience because people in college are supposed to be mature enough to accept the responsibility of keeping it clean and neat.

Apparently the student body is not capable or lacks the interest to accept such a responsibility. If this is the case, I am sure that The House Rules Committee will find some methods of punishment to curb the infantile behavior of littering. I am sure that no one wants this!!!

Why don't the people responsible for the several accidents of the past few weeks contact Mr. Cimino. If this is done quickly and quietly it would be handled in the same manner. No one would have to know, except the parties involved.

By running you have gotten yourselves into more trouble than you possibly could get into by reporting it. However, you can avoid any more trouble by following this suggestion.

LIBRARY ACQUIRES NEW BOOKS

Mrs. Gerry has announced that during the summer vacation the Highacres library acquired over one hundred new books. A list of the new books, covering a wide range of subjects, may be obtained in the library.

In addition to the new books, the library has received several filing cabinets and a new electric typewriter.
