

SUCCESS!

The first Highacres' Expansion Fund Drive reported a total of \$213,000. Before the final "Mop-up" Campaign is over, \$215,000 is expected. This is, of course, well over the \$200,000 goal. Over 1½ million dollars will be available when government funds are supplied. With this money Highacres plans a combined laboratory-classroom facility. We, the students of Highacres, should be very glad to have been able to share in financing such a Project and very proud that the community has so much faith in higher education.

JOBS IN EUROPE

Attention: all students who want to go to Europe this summer. The placement department of the American Student Information Service announces that an interesting selection of summer jobs in Europe, numbering more than 10,000, is still available to college students who apply now. Most jobs do not require previous experience or foreign language ability. Wages range to four hundred dollars a month and room and board is often included. Available positions include lifeguarding and other resort work, child care, office work, factory work, saleswork, farm work, shipboard work, hospital work, construction work, and camp counseling. Although applications are accepted throughout the school year, jobs are given on a first come first served basis. This year the ASIS is granting a \$250 travel grant to all applicants.

Job and travel grant applications and detailed descriptions (location, wages, working hours etc.) including many photographs of American college students on jobs in Europe are available in a 36 page booklet which students may obtain by writing directly to Dept. VIII American Student Information Service (ASIS), 22, Avenue De La Liberte, Luxembourg City, Grand Duchy of Luxembourg and sending \$2 with their request to cover the cost of the illustrated booklet, handling and overseas air mail postage.
