

LADDERS TO SUCCESS

Although students in general have the inherent latent ability to perform the work required in each of their specific courses, they, especially the freshman, have a tendency to become discouraged. Although various and sundried causes may be discussed relative to this discouragement, only one of the major factors causing this discouragement will be discussed.

Students, in general, do not realize that they are members of a team, and do not work as team members to accomplish their goals.

The team of which they are members is composed of a coach, the teacher, the advisor and counselor, the managers, and the other members, the other students. Therefore, if you, the students, are really doing your part to accomplish your goals as far as the team is concerned, you should be in constant touch with the coach in order to perfect your specialty, the managers to ensure that you are in your proper specialty, and helping and cooperating with other members to accomplish your goals. If you are not making full use of any of these you are not working as a team member, and although you may accomplish your task, the odds are against you.

So, during the next three weeks let us hope that each and everyone of you will make full use of the coach,

manager and other team members to attain your goals.

There is one final item of importance, YOU, team members, who are performing well, join the team, and help those team members who are not performing well.

You will be surprised at the gains you will receive.

Mr. Caliva

FACULTY SHOW

The curtain will open at 8:15 P.M. on Jan. 12, 1967, on the first annual faculty student comeriety show. The evening will present comedy, satire, and talent, written and performed by volunteers from the student body together on a social basis, for one evening and to raise money which will be used for a faculty sponsored scholarship. A stage curtain, and appropriate lighting sources will be set up in the Sub. Len Shaevel and Alan Price have graciously consented to produce and co-produce the show and skits which have been completed for Tim Staudenmeir, George Bobby, Htaine Win, and others.

A faculty quintet composed of Harold Aurand, Susan Goodman, Dick Paul, Al Price and Len Shaevel has already been formed. It could become a chorus.

If you do not participate, we hope to see you there on January, 12.

LIBRARY NEWS

The Xerox Telecopier, which was installed in December of 1966, is available for photocopies from University Park. The machine receives impulses via the telephone hook up. These impulses manipulate a stylus that in turn prints out a copy. The telecopier is similar to the associated press wire-photo. The print out time is six minutes per page.

The Dennison Copier is a machine located in the Library which will reprint from books, periodicals, or other papers.

The relettering of the 600's is in process. Cooperation of the faculty in returning books in this classification are being used the library may have to recall them for a day or two, until reclassification is complete.

These two machines are a useful and advantageous addition to our library. Students are encouraged to utilize them, for they are an expedient means of obtaining material that is needed quickly and in abundance.

PARNASSUS

Parnassus is a branch of the Keystone Honor Society at Highacres. To be eligible for Parnassus, students must have a fairly high scholastic average and must belong to at least two activities on campus.
