If you would like to place a classified ad in the next issue, write your ad up as you would like it, and give it to any Collegian Staff member.

UNIVERSITY PARK (APS)
— The Association of Women Students, (AWS), at University Park is issuing a plea to all students of voting age at the Commonwealth Campuses. The AWS is encouraging students to write to their respective State Senators, and inquire how they regard abortion legislation, particularly Senator Martin Mullen's Bill No. 800.

Mullen's Bill, passed 154-34 by the Pennsylvania House of Representatives, has been in committee since July. It was to have come up for final approval on November 13.

If passed, this bill would deny a woman a legal abortion, unless she has been declared on her deathbed by a trio of doctors from the hospital she is in. It also denies victims of rape or incest to have an abortion unless on this deathbed. A married woman would be required to have her husband's consent, and a girl under 18 would need her parent's permission for an abortion.

The Pennsylvania Abortion Coalition is being sponsored at University Park to express the individual woman's right to decide for herself whether or not she will have an abortion. Commonwealth Campus SGA Presidents will receive copies of this petition at the next Council of Presidents Meeting.

In addition to the petition, AWS is providing postcards for students at University Park to write to their Senators to support liberal abortion legislation. The Association would like the campus SGA's to do the same.

AWS is supporting Senator Henry Messinger's Bill No. 928, and is hoping it will pass. This bill would remove abortion as a crime in the state penal code, and will allow a woman to decide for herself if she is to have an abortion.

If anyone is interested and would like more information, they may contact the Pennsylvania State Legislature at (717) 787-2121.
