

LOOKING

continued from page four
the late Duane Allman on slide guitar weaves a song which, unlike most solo-oriented rock music, is a total group effort with each person adding to the overall song.

Jimi Hendrix's version of "All Along the Watchtower" shows the versatility on guitar that made him a legend in his own time. Bob Dylan has written many songs for many people, but I count this as one of his best and together, they are unbeatable.

"The Allman Brothers Live at The Fillmore," has to be one of the finest live albums ever recorded. It shows to the hilt the full versatility of American rock music, from the heavy blues of "Stormy Monday" to the Jazz-like melodies of "Hot Lanta." Duane Allman was one of the best guitarists to come out of rock, and his position will probably be unchallenged for quite a while.

Emerson, Lake, and Palmer's first album shows a blending of classical and Jazz styles that is near perfect. Each member of the trio is an expert in his own field, and with songs like "Lucky Man" and "Take a Pebble", listening to this album is sheer pleasure.

And finally, the last album I feel to be one of the best would have to be the original record of the rock opera "Tommy." We now have many rock operas, musicals, and masses written in traditional form, but "Tommy" was one of the first, and accurately could be called a trend setter. Very few albums are made with the degree of preciseness and professionalism of this one.

These few selections by no means close the category, but I think I have selected those songs and albums that are really the best.

BUSINESS AND ECONOMICS

At a recent organizational meeting of the Business and Economics Club, the following officers were elected: President--Ms. Joan Hudock, Vice-President--Mr. Dennis Gramata, Secretary/Treasurer--Mr. Mark Maguschak. Subsequent to the meeting, Ms. Hudock announced the following appointment: Publicity Chairman--Mr. Lester McHenry.

A committee is currently reviewing possible meeting dates of the club and it is anticipated that such monthly meetings will be held the 4th period common hour (12:15-1:30) on either Tuesday or Thursday. Already scheduled as one of the initial speakers at club meetings is a financial management expert from England, who is now in the United States on a business assignment with Merck and Company, Inc., Rahway, New Jersey. Mr. Arthur Robinson, C.A.A., is a Chartered Accountant in England, which is equivalent to the Certified Public Accountant (C.P.A.) professional in this country. In his capacity as Manager, Financial Services, with Merck, Sharp, and Dohme, Ltd., Hoddesdon, England, he is directly involved in financial management affairs of a corporation in England larger than many U.S. companies. Merck, Sharp, and Dohme, Ltd., is an overseas subsidiary corporation of a multinational U.S. firm Merck and Company, Inc.

As the primary objective and aim of the Club is to acquaint students with the practical aspects of the world of business in our economy, future club meetings will include guest speakers in the

fields of Marketing, Management, Finance, and Stock Market Investments, among others. All students at the University, as well as local residents, are invited to participate and attend all club meetings.

SUPPORT

by JACK YATSKO

How about that? High-acres finally got some support with an activity. In the past Highacres sponsored Gravel and Bruce Vanderpool, neither which got the attendance they deserved. "The Falling-Out" featuring "Haji," a local rock band, got the support it deserved. HAJI made some fantastic listening music. A lot of people were saying how great they were. I couldn't agree more. The melodies were good and very tightly put together. I would suggest, however, that if you like good music events at High-acres you might get off your backsides and come support activities instead of complaining there is nothing to do!

Better a witty fool than a foolish wit.
