

# EDITORIAL OPINIONS

## President Ron Drum

### Reflections

The end. The very end. The end of the term and the end of my administration. It seems a lifetime has passed since Joseph Melnick, 1975-76 S.G.A. President, swore me into office at the Awards Banquet.

And what big ideas and changes we were going to enact. Why, we were going to take on the whole University! And we almost did.

Many of the bigger ideas we realized could not be accomplished and were set aside. Those that were within our grasp were enacted.

One of the things I said would be a major concern this year was student apathy. I set to work immediately on instituting programs to end or at least slow down apathy.

During orientation I spoke on Apathy, calling for students to become involved and "help me kill the big green monster called Apathy."

We passed amendments to the S.G.A. constitution to open up new positions within the executive board; filling in loopholes, and giving representatives new titles; "S.G.A. Student Senators."

With the help of John Page, Vice-President, and Senator Brad McNab, the Organization of Town Independent Students became active. Car pools were started and an active housing list was posted weekly.

The need to organize all clubs into one unit was realized early and

the Highacres Club Advisory Council of the Student Government Association, better known as H.C.A.C. was initiated. This Council is made up of the president of each club on campus. The idea is that the presidents could help each other out with problems and could work together to carry out on activities. The idea worked!

We needed to communicate with the campus clubs so we, with the help of Congressman Daniel Flood and the U.S. Postal Service, acquired mailboxes for the clubs.

In regard to clubs, the Registering Committee, which later became known as the S.G.A. Department of Club Registration, registered six new clubs before Christmas; six new clubs could now open

### Introducing...

Hi!

My name is Nancy Klotzko and this is the first of my columns in the COLLEGIAN. First of all, I would like to thank all the students who ran for office and all those who took the initiative to vote in the April 1st election. I hope they will continue their interest in S.G.A.

I hope, that next year this column will help to increase communications between myself and you, the students. Hopefully, next year, I can make public the many services available to the students. The majority of which the students are unaware.

The Student Government Association is here to serve the student body.
