Wanted: History 10 book. See Rose, Room 241 in dorm, Box 1-77.

It's the one-and-only "Billy Iguana."

Good luck in finals EET's! You need it.—EX-EET.

Jesse Pollard for President—Physics 202.

I'm sorry Kathy (I must be prone to cadidity)!—D.

Good luck on your finals "Sherrif Shift"—Guess Who?

Freddy's Dead.

Who are you? Gift giver!! Leave a hint under the blade. "340."

Good-bye Lynne, I'll miss you. Good Luck at the Park. J.

Faculty Members Organize Workshop

A group of Highacres faculty members are organizing a basic skills workshop program for students at the Highacres Campus who are deficient in English, Math, or Reading.

Because of problems that students have in the basic skills areas, the need for such a program is growing.

Dr. Miller, a faculty member involved in the program, said he has seen from his own experience that many students find difficulty grasping some of the abstract concepts in their reading

assignments. Dr. Miller has suggested that one reason for the problem is that students do not read enough.

The program is only in the "planning period" right now, according to Dr. Miller. A panel of some twelve Highacres faculty members and administrators is discussing the facilities. Mrs. Moyer, also involved in the workshop program, recently visited Bloomsburg State College to take a look at their basic skills set up.

Cheerleaders Holding Candy Sale

The cheerleaders will be holding a candy sale during the month of November. The sale will consist of M&M's (plain and peanut), Snickers, Milky Way's, and 3-Musketeers. They will be selling the candy on and off campus, wherever you can find them! So, if you have the munchies, support the cheerleaders and your hunger by purchasing some of this delicious candy.

The cheerleaders are also practicing very hard every Monday and Wednesday nights for the upcoming basketball season. They will be passing out game schedules at winter term registration so you will know exactly when to come and cheer YOUR team on to VICTORY!

Students Enjoy Halloween Party

Screams of terror filled the Residence Hall Halloween night. No, the dining hall didn't serve liver and turkey again; they were the screams coming from frightened students. Yes, college students still enjoy Halloween. In fact, they probably enjoy it more now than when they were young! Everyone joined in to decorate the dorm (and I don't mean decorate like hanging pictures and curtains either). The dorm turned into its own haunted house, complete with ghosts and demons.

After the usual Trick-or-Treating in which the guys come to the girls' side and get all the candy the girls bought, and then give it back to the girls when they Trick-or-Treat, and the usual or unusual scares, all enjoyed the Halloween dance.

Prizes were given out to the best costumes and a D-J was on hand to take care of the music.

ATTENTION

During finals week the library will post longer hours, the dining hall will change its hours, and the Commons will be open for those late-night studiers. Also, coffee and tea will be served in the Residence Hall lobby to help get you through those "all-nighters."

Have been serving the people in this area for 45 years with the best quality chocolates!

Candy made fresh daily in our spotless kitchen since 1934.

New Courses Introduced Next Term

Three new courses will be introduced Winter term at Highacres, and another will change its name according to Mr. James E. White, Administrative Assistant for Academic Affairs.

The new courses entering the ranks are English 191, English 198, and Humanities II.

English 191, taught by Dr. Marchesani, premiered Winter term 1978 and will be offered once again this Winter to Highacres students as a three-credit elective. The course will concentrate on highly regarded works of science fiction. Readings such as I, Robot, by Isaac Asimov and The Puppet Master, by Robert Heinlein, along with some readings by the classic H. G. Wells, will be implemented into the course.

The basic purpose of the course is to "encourage people to read," according to Dr. Marchesani, and science fiction is an "accessible way" of doing that, he said.

A science fiction buff and avid reader, Dr. Marchesani hopes that the course can be "fun" and that students will continue reading not only sci-fi, but other topics as well. The course will be given M-W-F third period in M-1.

English 198, designed and taught by Dr. Cote, will premiere Winter term. The course, entitled Business in Literature, will deal with the portrayal of the businessman and the business world in literature. According to Dr. Cote the course is designed to "appeal" to business majors since they could relate to literature as it might pertain to business, but the course was not primarily set up to accommodate only those in the business curriculum. Classes will be M-W-F fourth period.

Humanities II, taught by Dr. Holmberg, will also make its debut Winter term. The new

course will study fantasy and children's literature. The course, according to Dr. Holmberg, should be "fun" in terms of reading, but is not intended to be a "cake" course.

Books for the course will include: Aesop's Fables, Aesop; A Clockwork Orange, Burgess; "Beowulf" and more. The course will be given fifth period M-W-F.

Information Series

- Women & Abortion—November 28, 8 pm in the Residence Hall
- Self-Defense—December 5, 7 pm in the Residence Hall
- Nuclear Power—January 14, 7:30 pm in the Residence Hall
