

# Soccer

them out of their deadlock blues. A game with PSU-York must have been just what the doctor ordered, because the offense, defense, and all the little intangibles that help a team win came together that Saturday. The Lions played their best game of the season, shutting out York 3-0. As striker John Baradziej put it, "We physically beat the s--- out of them." York, which had nineteen available players, was out hustled and manhandled the entire game by an aggressive swarm of Lions. Defensively, the team played its best game, and Jim Kalinovich proved himself at the important "stopper" position with a superb effort. Chip Winner and John Baradziej accounted for all the scoring, with Chip scoring two and assisting on John's goal, and John assisting on both of Chip's goals.

The performance in the game at York was a good omen of things that were to come for the Hazleton Lions. The performance came at a perfect time, with an important league game with tough PSU-Ogontz on September 28 coming up, and four more league games in weeks that were to follow. The team had finally made a transition from a young team with potential to a hungry team of soccer players with "the right stuff" to go far.

The roster included Coach Tom Fitzwater; Assistant Coach Mike Popatch; managers Kim Bradford, Kym Falcone, Kim Chipeleski, and Carol Plesh; and players Chip Winner, Mike Orlando, John Baradziej,

George Denger, Adam Huffer, Victor Wymbs, Jeff Sanders, Bill Shapiro, John Douglas, Tom Miller, Lad Olver, Jim Kalinovich, Brian Baker, Wade Martin, and Bill Lawrence.

Applications must be received by February 15, 1986.

WANTED!!! Writers for the Collegian-Spring Semester. Also - We are now interviewing prospective Business Managers to get ads and manage our money!!!!

### Temp. Classrooms-Cont.

The large classroom units are needed because of a shortage of space, said Ralph E. Zilly, University vice president for business. Each temporary unit contains one classroom.

The 24-by-60 foot units will be installed on concrete foundation piers on the south side of Parking Area C, near the Physical Education Building. Each unit will accommodate between fifty and sixty students.

The units will be gifts from the Pennsylvania Power and Light Company, Zilly explained.

Electric baseboard heating, carpeting, fire extinguishers and chalkboards will be installed in both units. Wood stairs will be constructed from the parking lot level down to the units.

Zilly said he hopes that the units will be available in time for the summer school session.
