Increased Number Enrolled at H.U.C.

A total of 119 students are enrolled for the present year at the Hazleton Undergraduate Center, making this the largest enrollment that the Center has ever had, according to the announcement of Mr. Coleman Herpel, administrative head.

When the Center was organized in 1934, 36 students enrolled for the first year. Since that time, the enrollment has gradually increased until it has reached its present peak.

The Center has now its maximum enrollment, according to Mr. Herpel, and unless some provisions are made for enlarging the quarter, no increase in enrollment will be possible.
