

Public Opinion

Many students were stopped in the game room or in the corridors and asked what they thought of the building in which they were receiving their education. Approximately ten out of every twelve were of the opinion that it was not what it could be. When asked what they objected to, they replied that it was crowded and that it had many hazards. They felt that if another building could be obtained which had more space for classrooms, a larger library, more conference rooms, and a larger recreation room, the problem would be settled. They also thought that the new building should have better ventilation than the present Center. One student quoted authorities as saying that the building was a fire hazard. This problem would also be taken care of by the new building.

Incidentally the faculty agrees with the students. They are completely in agreement with the idea of a new building. They are working under a great handicap because of the limited space.

Two residential homes have been under consideration as possibilities for a new Center; these are the Pardee and Lauderbach homes. The students who are from Hazleton prefer the Pardee home because it possess the qualities which are desired by students and faculty. Steps have been taken to acquire this building--let us hope that they are successful.

 Kistler
 One Foot in Heaven --Ario Brennan with
 Lois Rausch
 Kisses for Breakfast -- Dr. Kieft
 The Little Foxes (Wolves) --Stadnik,
 Harrison, and McNelis

Why the H. U. C. Band Failed

The Student Union was kind enough to donate money to buy orchestrations for a band that was being formed this year. However, at this time the band has ceased to be.

There is only one reason for its failure. Several students who showed enthusiasm in the band's formation have not lived up to their promises of interest. They have not only failed to cooperate, but they have also caused the interested members to drop out from lack of the required instruments.

Considering the fact that the Student Union was willing to supply orchestrations, we feel that the students should have shown enough interest to make a successful band. We feel that the students who volunteered to form a band failed the Student Union and also their fellow classmates.

Introducing (cont. p. 2)

Mrs. McIlvaine, formerly of Harrisburg, was affiliated with the Y.W.C.A. and Y.M.C.A.. Then she met handsome, debonair Harold and the results--two and one half years of happy married life.

Dr. McIlvaine taught at the Schuylkill Center before coming to Hazleton two years ago.

Research and photography are two hobbies of Dr. McIlvaine, and he's the only fellow who can really tell you what goes on in the dark-room.

Then we have his dislikes: pomposity or false modesty, and the music of Antonberg, and psychological plays (and "Doc", to think you teach Psych.)

Dr. McIlvaine is a member of the Kappa Phi Kappa, Sigma Xi, Psi Chi, Phi Delta Kappa, and Phi Delta Phi fraternities.

That's about all ---- so until our next interview, "Doc", we'll all see you at the Feeley Vaudeville Tuesday night and every week hereafter.
