

# SPORTS CHATTER

Although football holds the spotlight now, basketball season is only three weeks away. Our own team knows it only too well as they are winding up their fifth week of hard practice under the supervision of Coach Syd Rudman. Eighteen men still remain on the squad and according to Coach Rudman he will retain that many for home games. It is planned to carry 12 men for away games. Named for forward positions are the following first semester freshmen: John Riley, 6', John McHugh, 5'9", Bob Kostic, 5'7", Jack Fedock, 5'11", and Johnny Appichella, 6', while Don Barnes, 5'10", and Norby Leonard, 5'9", are second semester freshmen. Four rangy boys are working out in the center position including Karl Wagner, 6', Ray Williams, 6', Art Hutchinson, 6'5", and Ray Saul, 6'3". The first three are first semester freshmen while Saul is second semester. The guards are: Art Johnson, 6', and Bob Welliver, 5'7", both first semester freshmen; Joe Maday, 6', Charlie McGlynn, 5'9", first semester sophomores, and Al Durbach, 6', John Riordan, 6' who are second semester sophomores. These assignments are not definite as each player is required to know how to play each position. All in all we have a rangy, aggressive team that should go places if they have the co-operation of the student body. They are playing a tough schedule this season, which means plenty of hard work. The team needs your help, and you can help them by attending the home games. When the first game rolls around, be there to cheer your team on to victory.

### The Managers

Too often the managers of a team go unmentioned. Their job is to assist the coach in every way possible. They take care of minor injuries, equipment, and whatever the player may need. They attend practice just like the rest of the squad. This year Gene Bogdon is head manager assisted by Bob Patonovich, and Clarence Sipple.

### Swimming

All students interested in the formation of a swimming team are urged to contact Physical Director Rudman in the staff room at the Walnut Street Building, Monday, November 11, at 3 p. m.

### Wrestling

Students interested in wrestling should contact Physical Director Rudman at any time in the staff room.

### Basketball League

A meeting of basketball coaches of the Junior Colleges of Pennsylvania will be held on Saturday, November 16, at Harrisburg, Pa. The formation of a Junior College basketball loop will be discussed at that time.

Coach Rudman and Mr. Mattern will represent Hazleton Undergraduate at this conference.

### Radio Productions After November 16th.

In cooperation with Station WAZL, the radio programs to be presented by the Dramatic Club, will commence soon after November 16. The exact time and date of the performances, which are 15 to 20-minute period plays, cannot be announced at this time due to the fact that WAZL's schedule must be arranged in accordance with their regularly scheduled commercial programs. Such arrangements have not, as yet, been completed. The plays, however, will be held during the week, and there will be one performance per week. If these radio programs are a success, the club may attempt to produce a radio serial.

### BETWEEN BROAD AND WALNUT

We would like to know the name of the freshman who was entering the office of Mr. Goss, snapped to attention and delivered a military salute which would have done credit to General Marshall himself. Mr. Goss was astounded. Ah! Rehabilitation!

Two aspiring gentlemen who are members of the Men's Glee Club insisted on doing a solo during the rendition of the alma mater at our Hallowe'en Dance. The girls were supposed to have the solo, but this certainly didn't phase our ambitious vocalists. What some people won't do for publicity!

### Sorority To Admit Freshman Girls

The president of the Omega Chi Tau Sorority has announced that freshman girls will be admitted to the organization November 11. The sophomore girls who are enrolled in the organization will invite, in the near future, the freshman girls to attend the formal acceptance of new recruits at a covered-dish social. The covered-dish social is an affair where each member brings some sort of refreshment such as cake, candy, etc. Included in the activities of the occasion will be the installation of the recently sophomore officers who are: President—Irene Golias, Vice-President—Eugena Maczkov, Secretary—Ann McHugh, and Treasurer—Rene Olivia. Mrs. Amos Goss is acting as advisor to the sorority.

Regular meetings of the sorority are held in the library on the second and fourth Tuesday of each month. The meeting takes in the reading of the minutes, the treasurer's report, and the discussion of both old and new business.

The primary purpose of the organization is the promotion of activities such as dances and teas; however, the most important event on the sorority's calendar is the May Day affair. The financial ends of these affairs are covered by monthly twenty-five cent dues.

The last meeting was held on Oct. 29, while the first faculty tea was held at a previous date. Present at the tea were the women faculty members, the wives of the advisory board, the office secretaries, and the student members.

The sorority has organized a bowling league composed of two, three, and four girl teams. League games, played on Thursday nights at the YMCA give the girls an excellent chance to show their form and skill. The two teams compete against bowling teams from McCann's Business College.

### Automobile Drivers

In conjunction with the nationwide campaign for safe driving, the Collegian prints an interesting dissertation on the various types of drivers.

The personality of an automobile driver can be really determined by his actions and reactions. Generally we can divide drivers into two classes: the careful drivers, and the heedless ones. Since very little attention is ever given to careful people, we shall devote our thoughts to the careless, those whose names frequent the obituary columns.

In this discussion we shall review only those types of careless drivers that are most eminent. We can divide them into four classes: Speeders, Anti-Socials, Lovers, and Primpers.

The Speeders and the Anti-Socials can be distinguished from the others in that they have no definite reason for their carelessness. In order to get to his destination quickly, the Speeder manipulates his vehicle in and out of traffic, causing flaring tempers and gnashing teeth. The Speeder finds that he has a lot of time to waste, and usually he utilizes it by—that's right—jumping into his car and speeding some more.

The Anti-Social driver gains peculiar satisfaction from making man and beast shy away from his vehicle. He swerves into ditches to frighten dogs; he turns into puddles to splash

pedestrians; his life often ends in the driver's seat.

Proceeding to the class of drivers whose actions have a purpose, we find the Lovers more prominent than the Primpers. The Lover fails to realize that it requires two hands to operate an automobile safely; he pays no attention to the road when his lady love sits beside him. When you see a Lover lean out of the window of his moving car to whistle at a female, you can later see that same Lover occupying a cot in a hospital.

Speeders, Anti-Socials and Lovers are usually male drivers, but Primpers are strictly female. Glancing into a rear-view mirror to adjust a stray curl or to apply make-up, the Primpers manages to scrape a great many fenders. Her repair bills are generally high.

Beneath many tombstones lie Speeders, Anti-Socials, Lovers, and Primpers; many of them are there as a result of their carelessness.
