

# PICTORIAL REVIEW

**MR. PAVONNE**, instructor in Engineering, receives a gift from Santa. The student who did the "stand in" for old Saint Nick delighted the banquetees with witty remarks—a tribute to the training he received in speech no doubt.

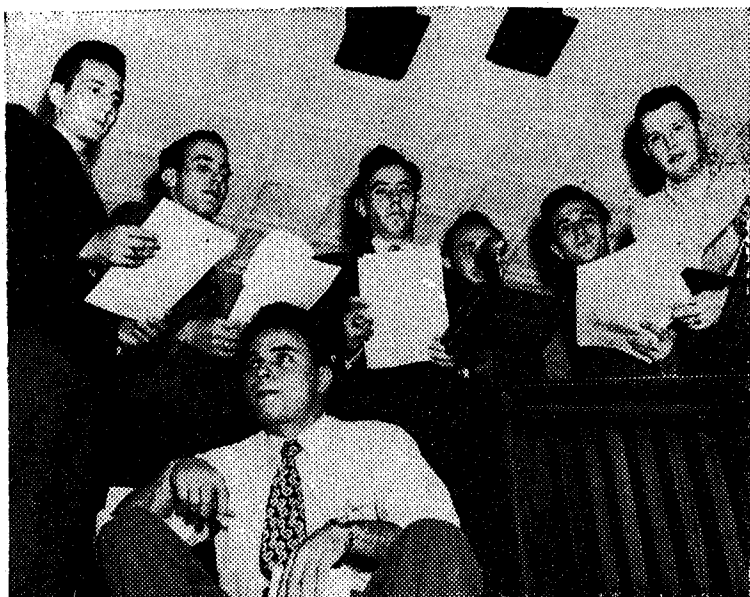

**MR. RALPH KRECKER** gives some good advice to George Demshock. The school's personnel counseling service has helped to straighten out the paths of many students who have used its facilities. This department further illustrates the progressive trend of affairs at the Center.

**HUC CHEERLEADERS** at the recent pep rally held at the Y.M.C.A. The yell queens have added much color to the school sports scene and are extremely desirous of the support of the student body on cheers and yells. They are another step in the progress of the Center. Pictured left to right are: Joella McCarthy, Patricia Kringe and Gladys Lorah.

**OUR CAPABLE OFFICE FORCE AT WORK**—Their untiring efforts are responsible in a large way for the capable execution of administration. The overflow enrollment, and the need for speed in much of their work is an added reason for awarding plaudits to this group.

**PENN STATE IN HAZLETON IS ON THE AIR!**—Seen at work are members of the radio group who present programs over WAZL.

**FACULTY BANQUET** at Genetti's at which members of our faculty dined with Campus dignitaries. They were entertained by the Glee Club of this school with Christmas selections and the evening was highlighted by the appearance of Santa Claus.
