**LETTER TO THE EDITOR (Continued)**

surrounding communities, had not been contacted either.

It should also be recalled that the college election was held on September 25, 1952 (only two days beforehand). Between these two events the Student Council didn't hold any official meeting; the members didn't quite know their duties and responsibilities, and if contacted weren't in any position to give their decision.

The Student Council permitted the Military Ball to be held on December 13, 1952, if it was all-college; the ball held near Christmas had always been an all-college affair. Why change it now?

The Student Council didn't restrict the budget of the AFROTC Ball in any way, but it does want to make sure that the AFROTC has enough money to pay all bills (last year the Student Council received three unpaid bills).

Furthermore, the letter received by the Editor, published in the October thirty-first Collegian, didn't have the approval of all the members of the AFROTC Ball Committee. Some members didn't know about it until it was published in the Collegian. Why was the letter signed, "The Military Ball Committee"?

In response to the last question, "Are they representing you?", the answer is yes. The Student Council doesn't vote on an issue to satisfy a few; it votes to satisfy the majority. The checking done by some members of the Student Council shows that the letter received by The Collegian was written only by a small prejudiced portion of the AFROTC Ball Committee.

Andrew Karpinski

**THANKSGIVING BALL**

Student Council has announced that plans are underway for the annual all-college Thanksgiving Ball. This dance will be held Saturday, November 22. However, final plans are not yet complete and will be announced soon.

This dance is sponsored by Student Council and is paid for by your S. G. A. Activity Fund. The S. G. A. Activity Fund covers all the all-college affairs held by the College.

So, come one, come all, pick your partner and come to the ball!

**FRANK ANTINOZZI APPOINTED BASKETBALL COACH: CALLS FOR CANDIDATES MONDAY**

Frank Antinozzi, former Hazleton High School and Scranton University basketball player, has been approved as basketball coach for the Highacres Lions for this season, it was announced by Administrative Head Merle E. Campbell, Thursday. Although the Center has no formal physical education program and therefore no faculty coach, Student Council appropriated Student Government Association funds to secure the services of coach Antinozzi.

Mr. Antinozzi has had experience coaching boys in both basketball and baseball.

He has set the tentative date for the opening of practice and for the first call for candidates for the team as Monday evening, November 10 at the A.D. Thomas gymnasium in Hazleton. This date is subject to confirmation as soon as Mr. Preston Peightal, faculty manager of athletics, completes the arrangements with Hazleton school district officials. He will post an official notice about the first call.

Mr. Peightal has issued a call for prospective student managers at the time of the first practice, although interested students may consult him before Monday.
