## CHIPPY CHATTER (continued)

Saturday night serenade, but as I investigated I found Beverly Wizdo and Sally Rarich taking the part of our Penn State disc jockey and I managed to hear some of the requests submitted by the following:

Katy Kokinda--"Please get that record off" (Just for informations sake the record happened to be from Yma Zumacs album.)

Marv Edelstein--"Please play all of Spike Jones' recording plus the "One O'clock Jump."

John Lovrinic--"Play some dreamy melodies."

Mary Donish--"Let's play Jingle Bells."

I left the disc jockeys and visited Mr. Steel's Botony 3 class, where I found Mr. Steel looking at his class hopelessly and saying, "It must be spring fever."

Have you noticed Cal Pardee's means of transportation are both convertibles-- A Caddie convertible and a motorcycle?

I've heard that Joe Schumacher, a vet, has a highly secret hobby. He doesn't speak of it too freely, but it is said that he is a master of the ancient science of--well, he won't let us print the details, but you can ask him. Don't hide your talent Joe!

It seems to me that something was missing from Miss DiRubbo's Spanish II class. Oh, yes, now I recall--it was our friend Larry Sydlo. Larry, a pursuer of gilled creatures, has recently snagged six beautiful Brown Trout. The largest was 14 inches. Nice going Syd!!

Did you know that Tommy Scott takes time off from his studies to be a member of the staff at the Coaldale Hospital--he specializes in illnesses that occur in paintbrushes, garden tools, and brooms.

Has anyone noticed that our friend Joe Belovich is carrying his pet around with him lately? If you haven't noticed ask Joe to show you his "little box, Whats' its name Joe?

Norm Hall always seems to have a special interest in his botany lectures. He has a perfect set of notes from what I have seen.

Well, I suppose I should say so-long until next week. This is your friend Chippy saying so-long "till we meet again."
