

Zany Zablocky was really happy to get a chance to greet the new students. After being introduced, his next line would be (and we're misquoting) "what courses do you have--it seems that I have several books that you might need etc., etc., etc., half price, etc., etc., etc.,....."

When Mr. Steel brings his "Iron Horse" , 1934 Pierce Arrow to Colloge, Mr. Longo has to use a shoe horn to park his Olds.

We cannot find a bit of gossip about our one and only Sagacious Syd.

---

#### SNEAK PREVIEW

Our roving reporter has stopped occasionally to talk to a few of our new classmates.

Here are a few of his findings:

We have a young lass whose hobby is p̄aying the sax. She drives a Willys station wagon advertising her dad's business. Virginia Muscavitch is here at the center to study Lab Technology.

Paul George spent several weeks in our summer school. He likes to sing and has a tenor voice.

Another musician in our midst is Mary Lou Lotito, who enjoys playing the piano. She also has an interest in football but just from the spectators stand point.

Lillian Junus enjoys photography, is a versatile athlete and likes the social sciences.

Ellen and Betty Iffert are the center's only set of twins. Both are likeable gals and enjoy dancing.

Philip Melito is assistant manager of the Grand theater in Hazleton. He is studying Ag. Eng.

A blonde lass with fluency in German is Nancy Maue. "Nan" likes Humor stories and laughs easily. She is majoring in elementary education .

The only music ed student this semester is Ray Carbe. He plays piano, drums trombone and sings too.
