

HOME MUSIC ITEMS

Miss Garbrick, this semester, is making it possible for those students who are not enrolled in a music course to get an appreciation of music. She is doing this by setting aside the 5th periods, Monday, Tuesday, and Thursday of each week for the purpose of listening to records.

Perhaps some of you, though not presently interested in music, would like to broaden your knowledge in this field. So don't forget, 5th periods, Monday, Tuesday, and Thursday is the time to do so.

Everyone is always interested in something new, so here are some views of the new session about a new experience, college.

The first week seemed to be nothing but tests, tests, and tests. We were tested for everything from handwails to whether we liked blue suits or brown. Between all these tests we slowly began to know about the rules and regulations through the many interesting lectures. The most amazing thing about all this was the fact that it was so well organized. No waiting for tests or lectures; even registration was handled quickly and efficiently.

With all this concentration and remembering, most of us were a little top-heavy with facts and rules come Friday. Perhaps it wasn't too trying, but it seemed to me that I had forgotten what most of the lectures were about.

But someone had even thought about our poor, tired aching heads, for when Tuesday rolled around, and we were in the midst of the first week of the struggle, there was fun and relaxation to be had at a picnic. Refreshments and all the trimmings of an old-fashioned picnic were supplied with plenty of time for the games afterwards. If anything helped to get everyone set for the last batch of tests, that did.

So after one last long week-end we were set for the big undertaking. I'm sure all of us were as informed about the college as anyone could be, and prepared to start right in without trouble.

SPORTS SPORTS

The status-quo of this Center's only intercollegiate sport--Basketball--will definitely be settled the Student Council convenes early next month. As in the past, Student Council will decide whether to retain this sport at Hazleton and also be confronted with the problem of selecting a successor to Mr. Frank Antinozzi, who is now teaching in New Jersey.

Several informal chats and interviews were held this past week with various individuals on this subject, and this reporter was surprised at the support being planned by the student body, to make the continuance of Basketball here at the center a reality.

Prospects for the season seem very encouraging, and would make any coach's ulcers "declare a holiday". Veterans from last year's squad are Norm Hall, Bill Burcin, Jim Fobrick Jim Greising, Clint Frank and Ed Ewancho. All agree that the enrollment of such promising material as Bobby Boyle, St. Ann's scoring ace; from Lawrence, West Hazleton; John Bolchin and Carl Lapinsky, Hazletownship; and many other basketball notables will definitely make Hazleton Center a top threat in the Junior College Basketball circuit. The cry "This Is Our Year!" is already emerging from the lips of the Student body and alumni, with the hope of a championship team, dangling ever so near.

Not much more can be said as to the status of basketball until the future meetings of Student Council, but this reporter will endeavor to bring all possible material to you in the coming issues of the paper.
