

I've wondered how many people know we have two artists (??) here at the center. I found out the other day when I happened to walk in a room and found Margie Bohn and Jackie Cohn comparing their artistic ability. Seems as though Margie was a bit disappointed though, for what was originally to be a poodle dog turned out to be a ~~-----~~. Suppose we let Margie tell the rest.

It seems as if some of sophomores are really getting rapped up in their Lit assignments. Now they've given Earl Dittbrehner the title --" Earl of Dittenbrenner." Well Mr. Dittbrehner, it hardly ever occurred to us that you belong to the royalty.

Richard (better known as Dick) Rossa is going to give one of the most persuasive speeches you ever heard. He calls it "Why the Library Needs Now Librarians." All the librarians are invited to attend. What's the matter Dick-- do you have a grudge against the librarians.

As I done some of my snooping around the campus this past week, I've noticed that I've lost one of my victims of gossip --Oh, he hasn't gone to the campus or transferred to another school -- it's just that since he's married he just doesn't want to be the victim of gossip, so he spends the day in classes and the other half studying or speaking to his male----- friends. Trying to make that 3.9 average Clarence ( Shipman--that is)?????? Ed. note: sech grammar--Chippy?????

Either Sally Rarich's been doing too much reading durning the summer or she has been working to hard. The other day I heard her tell one of her freshman girl friends ~~about another world~~ where everything is done by machine-- even STUDYING?

Thomas Swick seems to have the most affection for girls who can show him bank book and drive a car--better reword your statement Tom--any girl can show \*\*\* --you a bank book and almost any gal whoever tried, can drive a car.

x Oh shucks folks, as I glance at my watch I notice that it's getting late, and because I have a few things, other than gossip to do, I will have to close up shop until next week's edition of the COLLEGIAN. Just remember it's not hard to get your name in my column-- Just make yourself noticeable --for all I get are the facts. Kids. Just the facts. The gossip you have just read is true, only the wording has been changed to prevent investigation. (I got carried away by the Jack Webbs famous Dragnet).

Until the next edition, this is your friend and especially mine saying so-long

Sincerely,

CHIPPY

P.S. Don't forget --be different and you will get your name in print??????????????????
