

THEY HAVE RETURNED

Our own AFROTC cadets had a wonderful experience last Friday at Olmstead Air Base in Middleton. The boys left in an Air Force bus at 7:00 A.M. and arrived at the base at 9:30 A.M. and were immediately divided into two groups and were shown the various areas of the base such as: the weather room, control tower, hangars, link training room and other features.

In the officers club the cadets enjoyed a terrific noon meal and then took off in groups of eight for flights of an hour and a half. There were four of these flights and when everyone had his ride the cadets boarded the bus and began their trip home. They arrived in Hazleton at 7:50 none the worse for their experience.

Incidentally, Captain Carper is pleased to announce that there were no cases of greenness around the gills.

COLLEGE ARTS SOCIETY

There was a meeting Friday, October 30, in room M-208, at 12:25. At this time officers were elected. They are: Chairman--Shirley Ray, Secretary-Treasury--Janice Magavich, Publicity and Membership----Co-chairman--Buddy Robinson and George Mastrianni.

A tentative list of films was drawn up and a membership drive was discussed.

There will be another meeting on Friday, November 6, in room M-208 at 12:25. Every one interested in College Arts are invited to attend.

SPEAK OR FOREVER -----

This reporter had the keen pleasure of visiting, incognito, Mr. Cohn's Speech classes the past week. And I must say that students in this class pick the wildest subjects imaginable. A speech using bodily motions was the most recent assignment. And believe me, they were motions!!

John Di Liberto gave an action story of how to press a shirt with the steam presser of the type found in a dry cleaning establishment. After that talk we are convinced John will make a good husband.

Edward Bradley enthusiastically illustrated how to scrub pots and pans in the deep sink method. (A favorite chore of Ed's while in Uncle Sam's fighting forces.

Everyone followed with attentiveness as Elaine Ferke aptly told the class how to wallpaper a room.

Stanley Kushmider had an informative topic--"How to Play Soccer," John Lovrinic got in some delightful comedy with "How to Shave."

Paul Krohn demonstrated how to administer artificial respiration and Gene O'Neill gave us the scoops on the different types of fire extinguishers.

Sweet little Mary Ann Kowalick taught the predominately male class how to operate an electric sewing machine and almost fainted from chills when George Mastrian explained how to extract the venom from a rattlesnake.

Yes, yes, yes friends, if ever you want to spend an enjoyable morning visit a live class of speakers. Mr. Cohn's first period class on Monday and Thursdays or second period Friday.

STUDENT NEWS

The first meeting of the fencing club was really exciting. Some of the prospective fencers were very anxious to see how far the foil would go through a person....

I hear that Gene Charney is planning to be a custodian. He was seen helping "Mike" rake up the leaves.

Last Friday we spotted two freshman mountain climbers in the persons of the lively and vivacious misses Junas and Skoff. They were exploring in the back of the main building when they were attacked by a giant Garter snake. Last we saw of them they were still running.
