

## DANCE RENEWS FRIENDSHIPS

Old home night could have been the subtitle for last Friday night's dance here at Highcares, because dancing with us were many of our old Highcares classmates. It was nice to welcome them to our lounge once again and even though the visitors nearly outnumbered our present students the dance went smoothly and was enjoyable.

## CAMPUS GIGGLES

This campus giggler wished to apologize to Mr. Wilcox about one of last week's giggles and wished to congratulate him on how he accepted it. Take notice those statements were not quoted. Since the two names involved are our only Composition 5 teachers I just happened to use their names without notice. Believe me, readers, footnotes are important as I found out after my last Composition 5 class. (P. S. --- Mr. Wilcox is my advisor.)

Mr. Kreeker: (as he would say pscologically)

A lady is a woman who makes it easy for a man to behave like a gentleman.

Lying on the highway between Highcares and Conynham the other night was a dead skunk. After Nancy Maue, Jean Platt and Mary Lou Lotito scared the driver, Lilly Junas, by screaming not to run over the skunk, Lilly came off with this odorsome poem.

There once was a guy from the city,  
Who thought what he met was a kitty,  
So, he gave it a pat,  
And said, "nice little cat",  
And he buried his clothes in pity.

(The passengers replied, "what a smelly joke.")

## IT'S BEEN RUMORED.....

- .....That there's going to be "big doings" at the March 12th Dance. (Orchestra and all)
- .....That Merri Lu escaped with her life after being tied to the flag pole.
- .....That John Crine's auto has been named "CAR NOTHING".
- .....That the College Arts Society is scouting for actors.
- .....That Pat Tomsho and a certain Radio Announcer are the best of friends.
- .....That Mr. Steele had to mortgage His Pierce Arrow so the basketball team could get to the Tournament.
- .....That Bob Stauffer will become an aspirin addict because of his ROTC headache.
- .....That Mary Ann Kowalick is the only one who can do the Math 2 problems.
- .....That the seven students in Poly. Sci. 10 get into some very interesting discussions.
