- (1) The energy the heart generates in a two hour period would lift a 65 ton block of granite one foot in the air.
- (2) The average adult has a total of 120000 hairs on his scalp--blondes have 150000 and red haired persons have only 90,000. Peroixides???????????
- (3) While you are saying HUH! a total of 10,000,000 red blood cells are being destroyed in the body and another ten million are replacing them.
- (4) About 500 tons of crude materials are needed to produce one ton of penicillin.
