

MORE UPPERCLASSMEN

RAY SWENSON

We must elect Ray as the most quiet of the Sopomores. He has a very good outlook on college, "keep the voice down and the marks up". So far, for Ray, this has been quite fruitful. He entered our Center in the second semester of last year and has pursued the Chemistry Curriculum. He enjoys tinkering with his car as a hobby. We hope to see Ray back at Highacres next year.

EMIL BUTCHKO

"The Cal Pane of AFROTC" did quite a job on the photography end of the Cadet activities. Emil is in his fourth semester of Business Administration and is on his way to State College next year. "The General" appears to be shy, but get him out of class and he's quite a kibitzer.

ROBERT STAUFFER

A fourth semester student, Bob began his college career in Agriculture Ed. at West Chester S.T.C. He transferred to our Center after puying in one semester there. Bob has distinguished himself as Lt. Colonel of the A.F.R.O.T.C. Unit, and his fine position qualified him for the Convair Trophy. Bob is going to the Campus next year, although he hasn't succeeded in obtaining one of Mr. Steel's hairs from his bald spot.

EUGENE O'NEILL

Gene is another quiet type, but that's only when he's in the "Halls of Ivy". When classes are over, Gene lets his hair down and heads for the dance floor and a good band. Hailing from Weatherly, he spends much of the summer swimming in the Eurana Park pool. That his dance floor tactics gave him a good background is proven by the fact that he was one of the first volunteers for the Drill Team. "Nooky" finishes his two years here at Highacres in the Arts and Letters curriculum, but he's not positive at the moment of what his plans are for the fall.

HARVEY SHULTZ

In less than two weeks our friend Harv is going to make that long trip up the aisle. A third semester student in Business Administration, Harv and his bride will live on the Main Campus during his remaining two years. Millvill, his home town, is located between Bloomsburg and "we don't know where." Harv's friendliness makes him good company anywhere, but his one problem is the joke about Peat and Repeat.

GERALD ROOT

This chap is a conscientious Botany student who lives along the Wilkes Barre Highway not too far from our Center. Jerry's plans are to graduate from Penn State with an Education degree to teach science, and from here he goes to the main campus next semester. His favorite pastime is souping up his "Mayflower".
