TRAFFIC COMMITTEE REPORT

The Traffic Committee, under the supervision and direction of Mr. Ward, held its' initial meeting on Wednesday and began work on preliminary matters. The Committee will meet again on Monday and will attempt to complete preliminary work on the traffic problems which have arisen to date. Nothing has been solved in-so-far as requests for parking permits are concerned, but the requests will be given careful consideration at the next meeting and positive action will be taken.

The Committee agreed to inform the student body once again that the speed limit on all campus roads is 15 MPH and that any student exceeding the speed limit will be ticketed and subject to fine.

The students who walk up and down the hill are requested to follow the accepted procedure of walking on the roads, which is to walk facing on-coming traffic and not walking more than two abreast to allow normal flow of traffic.

REMEMBER: Ignorance of the law is no excuse for breaking it.
