HAZLETON COLLEGIAN

Page 6

(Chippy Continued)

Why did Pete Daniels flunk the Zoo Lab quiz? Was it because he kept seeing his girl's face under the microscope instead of the specimen?

It seems that Jack just bought a new shirt. (Who is Jack and who is his flame?)

Warning: Russ, you louse, don't you dare print that.

(What wasn't Russ supposed to print and who are you P?)

When my helper opens our mail box this morning, a penny was found. Joe Fierro standing nearby quipped - "Well animals have a (s)cent."
(Really Joe a pun!!)

Girls have you seen Bobby Yori's pipe? (Sigh)

Did you know that we have a pair of Siamese twins up here? They are Cal Smith and George Haak. Just try to find them not together.

Why is Bill Boyle always in the kitchen? Is he too broke to buy lunch? Or is it that he just doesn't know that both Mrs. Smith and Irene are married? (happily)

Well goodbye for now. I'll see you next week.

Kisses,

Chippy
