

(Christmas in other Lands Cont'd)

RUMANIA: Children parade through the streets caroling in groups. Each group has three youngsters dressed like kings with one carrying a manger.

NORWAY: People make gifts for the birds as well as for themselves. On Christmas morning, sheaves of wheat or other grains are tied to poles for the winter birds to eat.

CZECHOSLOVAKIA: Children wear colorful costumes and walk through the streets telling the Christmas story in simple song.

MEXICO: Ceremonies seem fictitious. Blindfolded children strike at an ugly pot which hangs from the ceiling. When the pot breaks, candies and good luck charms are strewn over the floor.

These customs and traditions summarize the Spirit of Christmas. Every year this miracle of Christmas is re-experienced in everyone's heart. All nations on the globe join hands to celebrate Christmas - the birth of Christ.
