

JAKE'S POLL cont.

2. What do you think is the best way to end the war?

	staff	students
escalate	10%	54%
presnt policy	16%	12%
de-escalate	42%	10%
undecided	42%	24%

NOTE-Several times while collecting the completed questionnaires I was questioned about the vagueness of number one. I agree that it presents a dilemma. It is my that the question would be answered in the same manner if it had been stated in any other way. In the future I will phrase my questions more specifically.

A FEW FACTS ABOUT CHESTER, PA.

Our present Delaware County Campus site is located in the City of Chester, Pa. The city is located on the Delaware River thirteen miles west of Philadelphia. With a population of 63,658, and an area of 4.77 square miles, Chester is a third class city, consisting of a mayor and a City Council. Last's week's election's returned the present mayor, Mayor James H. Gorbey, to another four year term. This continued the Republican trend, which has long existed in the city.

Chester, the oldest town in the state, is of historical significance to our State. Located at the foot of Penn Street, is a marking of William Penn's landing. Chester was formerly called Upland, but it was renamed by William Penn in 1683.

The favorable location and excellent shipping facilities of the city have given it a diversity of industries; namely, paper (Scott Paper Co), steel castings (Atlantic Steel Castings Co.), metals (Reynolds Metals Co. and Fibre-Metal Products Co.), and shipbuilding (Sun Ship Building and Dry Dock Co.), Through these products and many others, Chester has become an important industrial city.

COMMONWEALTH CAMPUSES

OGONTZ: BOMB SCARE

The report of a bomb by an anonymous caller, on Saturday, November 27, prompted the evacuation of the Sutherland Building. This was the second such incident in the last six months. The caller said that the bomb was in one of the closets in the building. Standard emergency procedures were enacted immediately and the local police was notified. The Director of Security at University Park has initiated a full investigation of the incident.

STUDENT MISCONDUCT

Ogontz's second mixer of the Fall term, although a financial success, was followed by many complaints against the student body. A screen, on the second floor of the Lares Building, was broken by students in their illegal attempt to enter the mixer.

There were two other major disturbances that evening. One of the decorative mirror balls suspended from the ceiling, was broken and the most amusing occurrence was when a hundred pound pumpkin was thrown through a second floor window.
