FROM THE PRESIDENT'S DESK

By Kate Connell
(USA Pres.)

Mr. Vairo, the campus director, was the guest speaker at the January 8 meeting of the U.S.A. He showed interested students the latest plans for the library complex to be built in the near future. The 3.2 million dollar library, to be located on the far side of the orchard, represents the first major step towards expanding this campus. Although the General State Authority (G.S.A.) has approved the funds for construction, the building will not be completed for approximately three years. The totally air-conditioned, two-level building will contain approximately four times the space of our present library. In addition, offices and classroom space, as well as faculty and student lounges are planned.

Students who have questions about the U.S.A. or suggestions for us please stop by office "A" in the Student Affairs Modular. We need your ideas and opinions in order to function properly. We are your representatives, so tell us what YOU think, what your problems are, and what you think we could do for you. Proposal forms are available in the U.S.A. office and the Executive Board members schedules are posted outside the office.

(Cont'd. on P. 4)
