### Farewell To The King

On May 2 Brian King, Counselor, Student Affairs, will be leaving Delco Campus for a job in a health care consulting firm in Devon, PA. He will be an analyst doing research and writing position papers. These papers will document whether or not there is a need for new equipment in hospitals and clinics.

Mr. King has been working here for nearly three years. He has enjoyed his experiences here and thinks it has been helpful to him since he interacts with the public a great deal. While his job here has been successful, Brian feels that it is time to move on to other things. His job here is an entry level job and he feels that there are few opportunities for him in higher education. Mr. King has always been interested in health care, especially geriatrics. He feels that his new job is a great opportunity for him since there is much room for upward movement in the health field.

The students will miss Brian, and everyone wishes him the best of luck at his new job.
