

EDITORIAL

On behalf of the Lion's Eye staff and the officers of the Undergraduate Student Association, I would like to extend a warm and sincere welcome to the 1978 Freshman Class. Beginning the college experience is an awesome undertaking. In the coming weeks you will be facing situations and personalities unlike any with which you are familiar.

You will be forced to deal with many new things. New things are often very frightening, but they also present to you a world of opportunity.

The easiest way to overcome the fear and take advantage of the opportunity is to take interest in the school which you have become a part of. Meet people! Exchange your feelings with them! In this way you will advance from the position of an individual in an unfamiliar environment to that of an individual who is a functioning part of the Pennsylvania State University.

Only if you go out of your way to interact with the staff and students at this campus will you grow as an individual and will the University grow as an institution.

I urge you most of all to introduce yourselves to the leaders of your student government. The office of the USA will always be open and your opinions and suggestions will always be welcome.

If we can all come to respect each other and work together there is no doubt that this will be an exciting and productive year!

Sincerely,

Mark H. Landon
