## Camera Club News

The camera club is offering photography service to the campus. Anyone who would want the club to print pictures for them please let the club know. The services will be done within 24 hours. If you would like the club to take pictures and develop them please give us one week prior notice.

The following prices apply:  
Black and White film; 20 exposures - 2.25 per roll

36 exposures - 3.50 per roll

Development of Black and White film:

one roll of 20 exposures - 1.75; includes contact sheet

one roll of 36 exposures - 1.75; includes contact sheet

Printing Black and White

8 x 10 - 2.00

5 x 7 - 1.00

4 x 5 - .75

Contact sheet of negatives - 1.25

The darkroom is located in room 128LLC.

During Spirit Week the Camera Club will be taking old time pictures. If anyone is interested in having their picture taken please see the photographer outside during the week of October 11 - 16.

## Will You Battle The Penn State Stars?

You can battle the Penn State stars by having the winning time on the obstacle course to be held during spirit week. Prizes will be awarded to the three male and female students with the fastest overall times. Just what is this obstacle course? A challenging, grueling event which includes running through tires, jumping across a creek, crawling under some low wire, a log walk, softball throw, and low hurdles. Have some

real fun during Spirit Week - test your skill against the obstacle course.

Students can sign up for the event at the registration table near the start/finish point in the apple orchard on race day, which is Friday, October 15, between 10 a.m. and noon. The winning times will be posted and prizes will be awarded at 12:05 p.m.

Show your spirit - Get involved!!

Spring was great,

but summer was a blast.

(See page 4)

## HIS FIRST YEAR OUT OF COLLEGE, FRANK QUACKENBUSH RENOVATED THREE BUILDINGS, WORKED ON A DAM, PAVED A ROAD, AND BUILT TWO CHOPPER PADS.

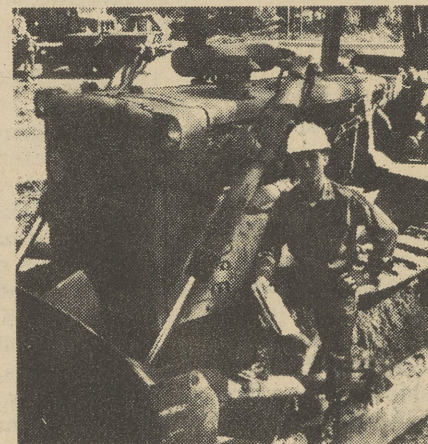

"Most of the engineers I graduated with probably wound up as an assistant engineer to somebody else. Maybe doing the details for somebody else's design or supervising some small aspect of construction.

"But my first year as an Engineer Lt., I've designed many of my own projects and supervised the construction on everything from baseball dugouts to the concrete work on a dam. Earthmoving, grading, filling, paving, concrete work, masonry - you name it, I've supervised it.

"Whether I stay in the Army or go into civilian construction work later, I've got experience that some engineers won't have when they're 30!"

Army ROTC got Frank Quackenbush off to a good start in his field. It can do the same for you whether you're a civil engineer or an English major. For more information stop by the Army ROTC office on campus.

And begin your future as an officer.

2nd Lt. Frank Quackenbush majored in civil engineering at the University of Arizona and was a member of Army ROTC.

**ARMY ROTC.  
BE ALL YOU CAN BE.**
