## Hot spots for hot dates in Philly

### Music Philly Hot Spots

Are you sitting around between classes day-dreaming about what to do this weekend? Well, I have a solution for you. Treat yourself to a night out on the town listening to the music you love. With over 300 venues in Philadelphia, you're bound to find something that tickles your fancy.

The city of brotherly love is also the city for music lovers of any genre. For example, if you love Christian Rock music then check out Fbc Manayunk Café where they host live "Rock, Folk, Jazz, Pop and everything in between."

If you want to relax to Jazz music just tap your way to the Zanzibar Blue International Jazz House on South Broad Street. Maybe there's a special someone in your life and you need a more intimate setting. Sweep your date off of his or her feet and check out Doc Watson's "Intimate Rock Club."

Or, if your pockets are empty but you and your friends still want to hit the hot spots, have no fear. The Foundation Community Arts is here. This is an organization that holds free concerts for Philadelphia.

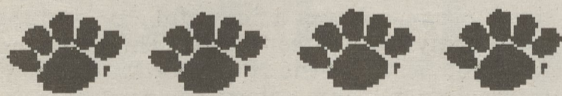

If you're a classic, simply waltz over to the Philadelphia Academy of Music and see the latest Opera or Ballet. I think you're starting to catch my drift.

There's a music lover inside all of us and we're lucky enough to live in a city that gives us the opportunity to enjoy our individual tastes. So, quit daydreaming and start deciding which hot spot you're going to hit this weekend.

By the way, visiting [www.phillymusic.com](http://www.phillymusic.com) will help you narrow your choices. See you on the dance floor.

### Food Ruby Tuesday

If you are looking to get good food for reasonable prices ranging from \$5.99 and up, you may want to try Ruby Tuesday. Being that it is a chain restaurant, a few neighboring locations are at Granite Run, Springfield Mall and on Mac Dade

**CANCER:** Tired of that smelly pair of sneakers you always wear? Buy a new pair.

**LEO:** Go to a music store and listen to something you normally wouldn't.

**VIRGO:** You have the ability to be everywhere at once.

**SCORPIO:** Your uncertainty can be answered within your heart and mother.

**LIBRA:** Your smile dazzles the room, so make good use of it.

**SAGITTARIUS:** Go the extra mile and see how far you have come.

### HOROSCOPES

**ARIES:** Your stars are bright as you wonder where the new year will take you.

**AQUARIUS:** You will find a new attitude within yourself to help you in more ways than one.

**CAPRICORN:** It is time to set your resolutions and make peace with your past.

**TAURUS:** You are able to let go and feel free to accomplish anything.

**PISCES:** Friends of yesteryear will keep in contact with you if you are willing.

**GEMINI:** Put forth a noble effort with everything you do so as not to be considered a slacker.

Boulevard.

The menu offers burgers, sandwiches, appetizers, ribs, chicken, steak and of course delicious dessert. A great appetizer to try is the spinach and cheese dip or the loaded cheese fries topped with bacon.

Ruby Tuesday also offers healthy dishes that are low in fat and carbs. They also feature a chart that informs the consumer about the fat, calorie and carbohydrate count that each dish has.

Of course with the never-ending dieting obsession amongst us Americans, this restaurant is a good choice.

Then of course for our non-dieters, the buffalo blue chicken sandwich is delicious. Don't skip the fries for they are much tastier than McDonald's. The ribs are also very tasty and filling, and have a few different barbecue sauce options.

Leave room for the mouth-watering dessert that they serve which involves chocolate, ice cream and the urge not to share.

In general, all three locations exude great food and good service. Ruby Tuesday also won't break your bank, so go ahead and indulge.

### Video Game Resident Evil Four

If you have a Gamecube then Resident Evil Four is the game to buy. In this game you play Leon S. Kennedy who is a government agent

investigating the missing daughter of the United States President in a European village. Resident Evil Four is unlike any other game.

With tons of action and unpredictable events the cinematic style of the game works extremely well.

The letterbox format allows more peripheral vision which is much needed. The camera zooms in when shooting and a laser is equipped with most guns to assist with aim.

Resident Evil Four keeps the player intrigued with the tons of action but the best times are when nothing is happening. The suspense the game creates with its music and subtle noises can make the toughest person paranoid.

Resident Evil Four has subtly introduced the laws of physics in a game that defies them. A well placed shot to the knee can stagger the zombie's movements and a shot to the head can stop them in their tracks; for some enemies.

You have several realistic choices such as opening a door quietly or simply busting it down. Resident Evil Four is filled with outrageously detailed cut scenes, character voices, a bad script, and very little loading times.

One of the few downsides to Resident Evil Four is the inventory. It stops game play long enough to become frustrating and it can max out quickly. In a few moments you will be able to see a zombie's arm in a wall and the environment is pretty much non-interactive.

Resident Evil Four is difficult but not too frustrating. It's a pleasant challenge and save points are relatively close.

Even at death you restart fairly close from where you left off. Resident Evil Four is the Gamecube's answer to Grand Theft Auto: San Andreas and Halo 2.

### SAY WHAAAAAT?

Christmas rush is over and debt begins. Consumers have to take a step back and question whether or not their second cousin removed really needed that Xbox.

To all of the brownnosers in this school, if you just do all of your work and show up to class with a positive attitude, you won't have to look so pathetic to others.

Why bother making resolutions for the New Year, when you know you are bound to break them?

To the guy who cut me in the lunch line on Tuesday 1/11, ha-ha, I got my sandwich first, LOSER.

The classroom. Learning space or playroom?

If you have a gripe that you'd like to see in Say Whaaaaat, e-mail [CCB148@psu.edu](mailto:CCB148@psu.edu).
