AROUND CAMPUS BRIEFLY

New home for ITS department

The ITS department can now be found on the lower floor of the Vairo Library in Room 128.

You can pay ITS a visit if you have questions concerning Internet access, the ANGEL system, or fixing any other school-related technology problem.

It is advised that all visitors bring with them their student ID cards, as many problems cannot be fixed without the specific information found on the card.

Challenge of Champions challenges you

The week of April 18 is the Challenge of Champions.

Organizers need as much help as possible for each of the events during the common hours of that week, including referees and people to help supervise the different games going on.

But more importantly, organizers want students to come out and participate in the week's fun-filled outdoor and indoor activities.
