## Athlete Profile Premiere

### Baseball: Carmen Delmastro

With encouragement from friends, and having heard that Penn State Delco's baseball team was undefeated last year, Carmen Delmastro decided to grace us with his presence this year as a freshman on the men's baseball team.

Delmastro, starting third basemen and lead off hitter from South Philadelphia is still unsure of whether or not he plans on staying at Delco. Other colleges such as Temple University and Ryder University are keeping an eye on him as a possible recruit.

Delmastro in the past has played short stop or second base, but is transitioning his way into third, since upperclassmen have "dibs" on the other positions.

"It's a nice environment. I have a lot of friends here on campus, and on the team. I've been playing with a lot of these guys for most of my life," said Delmastro.

**Most exciting thing you've ever done-** I have a tattoo that means a lot to me. It's the number 13 with Truth written over it. It was my dad's number, and in Italian, the number 13 is lucky.

**Number of broken bones-** Right big toe, left thumb

### Soccer: Ejaj Uddin

"I don't like the bus schedule here, I've missed it many times already," said Ejaj Uddin. Uddin is one of three freshman players on the men's soccer team this year. "I do like the campus though, its quiet, and all the faculty members are helpful."

Uddin, who is from West Philadelphia is a Business/accounting major and plans on staying at Delco until he can graduate. One deciding factor for his decision to come to Delco had a lot to do with the fact that the sports teams are now four-year programs.

Uddin (defense and midfield) doesn't work outside of school so that he can keep up with his school work, and still be on sports teams. He also plays basketball, football, hockey, baseball, frisbee, "and every other sport out there," said Uddin.

**Most exciting thing you've ever done that was out of character for you-** I had to dance in front of 200 people at my cousins wedding.

**Number of broken bones-**None, I break other people's bones though.

## Ultimate Frisbee On Campus
