

# Eye on Excellence

Penn State Brandywine welcomes incoming first-year students to get a head start on your Penn State Brandywine education in an innovative learning atmosphere.

## Summer Session II

July 5 - August 11, Tuesday,  
Wednesday, Thursday

Begin your university experience this summer at Penn State Brandywine. Choose your pride and fulfill two valuable general education requirements that apply to your degree. Make new friends, go on exciting field trips, work with lively, enthusiastic faculty, experience something new every day, and become a member of a dynamic learning community.

### What is Be A Lion?

BE A LION is an opportunity for new students to start their Penn State career in a small college atmosphere within the larger University. BE A LION is only for first-year students offered admission to our campus and is available only during the Summer Session II. Students offered admission for the fall semester can change their admission to the summer session to participate in BE A LION if they'd like.

### Get a head start

Be more successful -  
Academically and Socially!

Start your Penn State education in this supportive and innovative learning atmosphere, in courses taught by Penn State Brandywine faculty.

### How Does It Work?

Each student selects one of the academic "prides." (A pride is a group of lions - in this case, Penn State Nittany Lions.) A pride consists of two 3-credit courses with the same students in both. A student registered for one course within a BE A LION pride is automatically registered for both courses.

Eye on Excellence is a new section of *The Lion's Eye* that will be featured throughout the semester. Along with Commencement, Eye on Excellence will be highlighting yearly events as EURECA, Leadership Recognition Night, Litapalooza, and others. Outside of these events, we would love to hear about people across our campus who go above and beyond and celebrate excellence everyday in the work they do.

The Editorial Board of *The Lion's Eye* welcomes faculty, students, and staff to contact us with your stories of outstanding achievement here on at Penn State Brandywine. For more information or to make a submission, email lionseye@psu.edu!

Register today. Space is limited!
