Aries

Adventurous day. Do you feel like having an adventure? Well today, you're more likely to have an adventure when you go on a short journey. No need to go very far, just someplace you've wanted to go before, yet never been. Today is also a good day to surprise a close friend with news or a small gift.

Taurus

Different strokes for different folks. Today, more people around you will differ in their beliefs from yours. Rather than clash with all of them, listen respectfully to their opinions. Then only if absolutely necessary, try explaining your position. Great day to expose yourself to other points of view.

Gemini

Shiny happy person. Today your individuality will really shine. So for the best day possible, try showing off the qualities that make you different and unique. That could involve wearing your favorite clothes, sharing your hobbies and collections, or even telling others your most unique desires.

Cancer

Take time for both. Today you'll have dual needs. On one hand, you'll want to take part in social activities. And at the same time, you'll need some time alone. Fortunately, you can and should do both! Today plan time with others, and also try to find someplace quiet where you can spend an hour alone.

Leo

People power. To feel your best today, spend more time socializing with others. Attending a party would fit the bill perfectly! But, that's not the only solution. You can also go to any crowded public place where you can mingle with lots of people. Great day to go to a popular restaurant, movie theater or store.

Virgo

Out in front. Today your leadership skills are stronger than usual. So much so, that you should put yourself into situations where you can take a greater leadership role. You'll find you're especially effective when you get out in front and lead others by example. Great day to invite friends to join you.

Libra

Make up your mind! Today spending too long making decisions won't benefit you. In fact, it could cause you some unnecessary grief. That's because today you'll tend to overanalyze your options. The simple solution to this problem is to make decisions more quickly, especially on unimportant matters.

Scorpio

Can you avoid money? Today you may want to try! That's because today your judgment regarding the use of money is at below normal levels. Try putting off any major purchases or investments. You'll also want to avoid advising others how to spend their money. Tomorrow things will be back to normal.

Sagittarius

Relationship elevator going up. Today you'll want to spend more time with someone you find special. That's because today the stage is set for your relationships to improve and mature. If possible, try planning something unique with that someone special. And don't let outside influences interrupt your time together.

Capricorn

Better shape. Great day to focus on bettering your health. That's because today your health and physical wellbeing are in stronger focus. To help achieve the best results today, try to focus mostly on eating healthy foods, and on getting enough rest for your body to rebuild its natural defenses.

Aquarius

The language of love. Today romance is a much greater possibility! So what can you do to improve your chances? You needn't say a word. That's because today your nonverbal signals are the key to improving your chances of making a love connection. When meeting people today, let your eyes and smile express your true intentions.

Pisces

Back to the simple things. Today, simplicity is your key to having the most successful and satisfying day. That means you'll want to avoid situations that seem overly complex. Instead, choose to do things in the simplest manner possible. It's also a great day to focus your time on favorite places, activities and people.
