

# Wrap Up Kitchen Freedom in Gift Dishwasher

BY EDNA MILES

IT'S fun to entertain. The excitement of getting ready, of trying out a new recipe, of polishing up the silver and getting out your prettiest linen all make for a festive feeling.

But the letdown comes when the party's over. Surveying the wreckage, you ask yourself if it was worth it. But that's all wrong. Because sharing your home with your friends—being hospitable—brings everyone concerned the healthiest kind of emotional reward.

Nevertheless, few of us relish the cleanup department. By the time the last dish and ash tray have been put neatly away, it's usually two a.m.

That's why, when you make up your Christmas list, it might be well to consider pooling family funds for gift-buying and putting them all into the purchase of a mobile dishwasher, one that you can guide around the kitchen and dining room to pick up dirty dishes or store clean ones.

It's a family investment, true, but your husband and children don't relish k.p. any more than you do. One particular mobile dishwasher is designed for easy toploading, is easy to move around but is still a full-sized dishwasher and you can take it along when you move.

Mobile dishwasher is a gift the whole family will enjoy. It needs no special installation and can even be used as a dirty-dish pick-up cart.

### Look Carefully At Sale Clothing

Real bargains in clothing sales are often from mused or broken stock, says Mae B. Barton, extension clothing specialist of the Pennsylvania State University.

Some soiled garments can be cleaned easily and look as fresh as those that never had been soiled. Careful shoppers will watch for defects and stains and recognize whether or not such defects can be corrected or removed. Broken seams and loose buttons and other fastenings are minor repairs that take little time and effort.
