EMPLOYMENT

Employment in nonagricultural establishments, is at a record peak, according to the Bureau of Labor Statistics. A shortage of skilled workers in many industries is reported.

Extension Association Meet Feb. 14

The annual meeting of the Lancaster County Extension Association will be Tuesday evening, Feb. 14, at 6:30 in the social room of the First Presbyterian Church, 136 East Orange, Lancaster.

County extension workers will give brief reports on the educational program conducted during the year. A short business session will be held, with election of an Extension Executive Committee.

Guest speaker will be Rev. James R. Carroll, Central Presbyterian Church, Buffalo, N. Y., former Chestnut Level pastor and an active 4-H club leader in the southern end of the county. The 4-H Holstein Quartet will sing.

Advance reservations are required for the evening meal, with a deadline of noon, Friday, Feb. 10. Tickets may be obtained from any member of the present Executive Committee or the Extension office, County Agricultural Agent M. M. Smith advises. Those who cannot attend the evening meal are welcome to come for the remainder of the program, Mr. Smith adds.

Milk and Egg Production at New Records

HARRISBURG — All-time records for annual production of milk and eggs were established by Pennsylvania dairy and chicken farmers during the 12 months of 1955, the State Department of Agriculture said today following Pennsylvania Crop Reporting Service surveys.

The preliminary estimate for milk production, January through December 1955, totaled 6 billion and 452 million lbs, the Department said. This compares with 6 billion, 156 million lbs produced in 1954 and the 5 billion, 971 million lbs in 1953.

On the egg front, last year's output is estimated at 4 billion, 474 million chicken eggs — about 6 per cent above 1954 production and an astonishing 37 per cent above the 10-year annual average.
