

Electric Drill Safety Measure

Glenn and Murl Aument, brothers at Solanco High School, here demonstrate safety measures with an electric drill at a recent meeting of the Southern Lancaster County 4-H Tractor Club. A pipe to protect the bit, and a rag to catch shavings can do much to prevent serious accidents and injuries. The meeting was at the C. E. Wiley & Son implement store in Quarryville. Sales Tax License Applications Mailed To 250,000 Businesses

Applications for licenses to collect the newly-enacted 3 per cent Sales and Use Tax are now in the mail to more than 250,000 business firms in the State, Secretary of Revenue Gerald A. Gleeson has announced.

The forms are being sent to all the firms who were registered under the former Sales and Use Tax Act. Because of the additional items to be taxed under the new law and the additional categories covering businesses not formerly subject to the tax, it is expected that the total of licenses will be close to 350,000 when all applicants have been registered at the \$2 fee under the new tax program.

Seventeen general categories of property which are subject to tax are listed in the current law, and new firms required to collect the tax can get applications at all District Sale Tax Offices, local Chambers of Commerce, or by writing directly to the Bureau of Sales and Use Tax, Pine Building, Harrisburg. **April 30 Return**

Return forms from those charged with collecting the tax must be filed monthly. The first return under the new 3 per cent impost will be due no later than April 30. Regulations covering the tax are now being prepared.

Secretary Gleeson also said that the Sales and Use Tax Bureau is presently staffed with enough employees to handle and administer the start of the new tax measure, and more personnel will be added as quickly as needed.

Following are the seventeen general categories of property which are subject to the 3 per cent tax:

1. Motor vehicles, trailers, semi-trailers and aircraft, and all accessories, parts, and equipment used in the maintenance, operation or repair of such motor vehicles, trailers, semi-trailers and aircraft, except gasoline.

2. Formal day or evening apparel, and articles made of fur on the hide or pelt, and articles of which such fur is the component material of chief value, but only if such value is more than three times the value of the next most valuable component material.

3. All materials, supplies, and equipment used in the construction, reconstruction, remodeling, repair and maintenance of any real estate.

4. Furnishings, appliances, supplies, fittings, ornaments, furniture, equipment and accessories for home, business, industrial or commercial use, for indoor or outdoor purposes.

5. Business, industrial, professional and commercial supplies, equipment and machines of all types including parts and accessories purchased on or used in connection therewith.

6. Cosmetics, toilet preparations, toilet articles, drugs and medical supplies except when sold on prescription.

7. All tobacco products except

such products already subject to tax under the laws of this Commonwealth.

8. Luggage, leather goods and related articles including fittings and accessories.

9. Jewelry, watches, clocks, and related articles.

10. Books, stationery and stationery supplies.

11. Toys, games, hobby supplies, photographic and projection equipment and supplies, sporting goods and athletic equipment, parts and accessories used in conjunction therewith regardless of the use made of such property.

12. Flowers, plants, shrubbery, trees, fertilizer, sprays and insecticides, bulbs and seeds and supplies and equipment used in connection therewith.

13. Fuel oil and petroleum products for heating purposes, natural, manufactured, and bottled gas and steam.

14. Hardware, tools, paint and painting materials and equipment.

15. Live animals, fish and birds, and supplies and equipment used in connection therewith.

16. Radios, television, receiving sets and receiving equipment, phonographs, sound recorders, musical instruments or any combination of the foregoing and parts, components, and accessories for the same, and records and sheet music.

17. Food and beverages when purchased for consumption on the premises from persons engaged in the business of operating public restaurants, cafes, lunch counters, other eating places and clubs except when purchased from school church, or hospital in the ordinary course of the activities of such organizations, from persons engaged in the business of catering when in either case the purchase price of the total transaction is more than fifty cents.

Beverages shall not include soft drinks, malt and brewed beverages and spirituous and vinous liquors.

Smart Boy

Little Bobby: "I found a horse-shoe this morning."

Mother: "Do you know what that means?"

Little Bobby: "Yes, it means that some horse is running around in his stocking feet"

Truthful Advertising

"I had a terrible time with my flivver."

"Yeah?"

"Yep. Bought a carburetor that saved 50 per cent of gas; a timer that saved 30 per cent; and a spark plug that saved 20 per cent. After I had gone ten miles my gas tank overflowed."

In Fashion Now

The shirtwaist dress is popular for Spring and Summer. This is one of the classic designs that is always in good taste. It is worn for almost every occasion. The cotton shirtwaist is a good choice for grocery shopping or for a round of golf. The linen or silk shirtwaist makes a lovely afternoon dress and the satin and the linen with satin or jeweled trim makes an elegant cocktail dress.

The straw bag has definitely gone glamorous. There are beautiful ones being offered in every color under the sun, decorated with flowers, rhinestones, pearls, shells and any glamor material that comes to the designer's mind.

Matching Parasol

The matching parasol is news and very becoming. One of the cutest numbers in a recent showing of Spring and Summer clothes was a mother-and-daughter outfit, each with its matching parasol. Some of these new parasols are very elaborately decorated and can represent quite an investment. Some are simple but just as effective. They are said to cast a flattering shadow over

my lady's face, when chosen in a becoming color, casts quite a romantic glow. The parasol pocketbook is a new idea.

Straw imports from Italy are more beautiful than ever. Shoes, every item of clothing — is being fashioned from the soft, pliable straw, native to that very fashion-conscious country. The coloring process is said to be much improved and more lasting. The best advice in this department is — don't try to economize. If you buy the cheapest garment offered it may well prove to be the most expensive because it will not hold up and will not keep its color.

Tank Suit Revivals

In the bathing suit department look for a revival of the tank suit. These suits, for the most part, need an almost perfect figure to be becoming. However, manufacturers say they are making them by the thousands and that American women will wear them. They are improved over materials are far better and they the old type tank suit in that they all feature a built-in bra.

Big, bold rings are still being seen. Earrings are big and bold

too, but not long and dangling as before. Fresh flowers are being fashioned into earrings. In fact, a pair of earrings that were nothing more than two small plastic tubes attached to earring backs, recently made news at a New York fashion showing.

Spain suspends all exports of olive oil.
