

The Weather Bureau's 30-day outlook for April calls for temperatures to average below normal in States along the Atlantic and Pacific Coasts and also in the Northern Plains. Above normal temperatures are indicated in the Southern Plains, Southern Plateau, and West Gulf States. In other areas temperatures are expected

to average near seasonal normals. Precipitation is predicted to exceed normal in the Pacific Northwest and Missouri Valley, and be close to normal in the Middle Atlantic States, Great Lakes region, Ohio Valley, and lower Mississippi Valley. In the remainder of the nation subnormal amounts are anticipated.

Salisbury Grange Holds Program For Fulton Unit

First of the Lancaster County Pomona Grange visitation programs was carried out last Monday evening when Salisbury Grange visited Fulton at the latter's regular meeting at Oakryn and presented the literary program.

Their lecturer, Mrs. Betty Ford, announced the following numbers: Piano solo, Mrs. L. W. Singer; forum on the "Soil Bank Plan," with Miss Helen Wanner, Ralph Wanner and Chester Eby participating; recitation, Miss Jane Ford.

Vocal solos, Mrs. Alfred Wanner; talk on "Value of the Grange," State Grange Deputy, Alfred Wanner; a presentation to the Fulton Executive committee by Mrs. Chester Eby; and remarks by Mr. and Mrs. Bennett Coates, visitors from Coleman Grange.

During the business meeting, in charge of Master Charles G. McSparran, the legislative committee chairman, Theodore Beck, reported on different bills up for vote. The Grange instructed the committee to write the representatives in Washington, asking their support of House bill No. 6721, which would outlaw Daylight Saving Time.

Members also favored retaining the present basis of returning State funds to local government — House bill 1311, in the State Legislature.

Two candidates, Jesse Wood and Miss Marie Murphy, were voted in for the new class to be initiated into membership this Spring. The Youth committee play, entitled "Aaron Slick from Punkin Crick," will be presented in the Grange Hall on April 12 and 14 at 8 p. m. The Home Economics committee will have the refreshment sale.

Their annual Talent Night will be held at the Hall on April 13 at 8 p. m., in charge of Mrs. Harold Graybeal, chairman. This is open to all young people of the community and prizes will be awarded.

On April 2, Fulton members visited the Ephrata Grange and presented the literary program.

At the next meeting, April 9, the Youth committee will present the program during the lecturer's hour and also will fill the officers' chairs.

AID TO SCHOOLS.

Federal aid for the construction of schools, rather than use of Federal funds to meet school-operating expenses, is now being considered by the Eisenhower Administration. The Administration "will present to the Congress a broadened and improved program of Federal assistance to help erase the classroom deficit," according to Marion Folsom, Secretary of Welfare.

Isn't it funny that tributes to minorities usually come from politicians running for office in regions where the minorities live?

It's The Law

"It's the Law" with simple answers is offered by LANCASTER FARMING in cooperation with the Pennsylvania Bar Association. General interest questions are welcomed, and will be answered as soon as possible. Letters must be signed. Answer will not be published on a specified, requested day. Questions cannot be answered by mail, and LANCASTER FARMING will reject any inquiry which is not of general public interest. Address all inquiries to "It's the Law," LANCASTER FARMING Quarryville, Pa.

Q What is meant by the term "Unauthorized Practice of the Law" and why do Bar Associations have a special committee on Unauthorized Practice of the Law?

A The unauthorized practice of the law consists of the preparation of legal documents and the giving of legal advice by persons who are not attorneys-at-law. The real reason Bar Associations have a special committee on the Unauthorized Practice of the Law is to protect the public against the costly mistakes which are made when persons other than lawyers attempt to prepare legal papers and give advice. For example, an elderly spinster who had raised her nephew from his early infancy intended to prepare a will leaving him her entire estate which consisted of the small home which they both occupied. She went to a notary public who purchased a printed form of will and had her sign her name at the top of the will and he signed his name and affixed notarial seal at the bottom of the will. When she dies the will could not be admitted to probate because it was not signed at the end by her and she died intestate and her favorite nephew with whom she lived for many years inherited only 1/6 interest in the property and the other 5/6 interest was divided among other nephews and nieces who lived in other parts of the country and who had not seen the old lady for years. If the committee on Unauthorized Practice of the Law of the local Bar Association had not investigated this case, this notary public might still be making the same fatal mistake in preparing wills.

Q. I am to receive \$5000 from an insurance policy on my deceased husband. Will this money be subject to taxation? C.T.

A. If the proceeds of the policy are payable to you directly as the principal beneficiary thereunder, no Pennsylvania Transfer Inheritance Tax would be due. Depending on the size of your husband's estate, and the terms of his will, there might be some liability for Federal Estate Tax on this sum. An attorney could answer this question for you after investigation of these matters.

The representative of almost any foreign country can tell you why it will be highly advantageous to the U. S. to make a large loan.

Garbage-Fed Hogs Not Cause Of Trichinosis

HARRISBURG — Reports that garbage-fed hogs might be the source of the initial cases of trichinosis in humans in the Lebanon-Lancaster County area are unfounded, Dr. William L. Henning, State Secretary of Agriculture, declared today.

Every farm supplying hogs to the distributor of pork sausage to which the early cases were traced has been inspected by agents of the Bureau of Animal Industry. None of the farms was feeding either raw or cooked garbage, Dr. Henning said.

Fifteen Farms Inspected

Investigations by veterinarians resulted from information received by Dr. Henning from Dr. Berwyn F. Mattison, State Secretary of Health, that the Health Department had reason to believe the source of the outbreak was locally produced fresh pork sausage.

The Health Department and commission firms aided in tracing the source of supply. Approximately 15 farms were inspected — one as far away as Centre County.

"All types of hogs are capable of harboring trichina parasites, whether they are grain-fed or garbage-fed," Dr. Henning emphasized. "The only pork that is safe to eat is well-cooked pork."

"Trichinosis in humans readily can be traced to the eating of

Cancer Crusade Asks Support of All in County

The 1956 Lancaster County Cancer Crusade was launched at a meeting of the men's division on Tuesday March 13, at the Grubb Mansion in Musser Park, Lancaster. The meeting was attended by more than 60 of the 100 workers and 20 captains of the men's division. Nathaniel Hager, Chairman of the Crusade announced that cancer was the third largest killer next to obesity and success. He also stated that 40 per cent of the funds raised would be used locally to help indigent patients. The remaining 60 per cent went to the national program of education and research.

Dr. Paul O. Snoke stated that the present goal of the educational program is to get more early cases. Delay makes cases more difficult to treat successfully.

The women's division kickoff meeting was conducted at the First Presbyterian Church Wednesday evening. Mrs. G. Theodore Storb is chairman of this division.

The goal for the 1956 Lancaster County Crusade has been set at \$43,000. Headquarters for the drive are at 330 North Duke Street, Lancaster.

raw or insufficiently cooked pork products. The Departments of Health and Agriculture, physicians, veterinarians, food editors and others for years have stressed thorough cooking, but there are still some who ignore the warning."

Sterilization of garbage before feeding to swine is required by State law. The practice has materially reduced the occurrence of various diseases of swine, Dr.
